Chapter 1
Before Glitched Pages

The whole story of Glitched Pages started with ERROR but before he was called ERROR when he was called CTG10 at first it was like Earth-199987 but everything was about to change when CTG10 was about to destroy his whole Universe The story starts when CTG10 goes to his friend Ethan's house and talks about Multiversal travel and that it could be real after they talked CTG10 decided he was going to travel the multiverse and started his journey to find out how to do it but he didn't know anything about how to do it so he tried ways to find out how to do it so he read books on ways to but when that didn't work he moved on to try watching YouTube videos on how to do it but that didn't work either so he thought of something else combining both but he needed more time so he took a break from doing it but he could not stop thinking of what his friend Ethan thought "Multiversal travel could be real" so he decided to not give up and he would try to learn how to later but to get materials to use later he went to Walmart to get supplies to use after that he went back to his house and read more books and watched more videos to help figure out how to find out how to travel the Multiverse but he thought of an idea but he went to his friends house to talk about it his idea was to combine all his research from the videos and books to see if it would work but it would take a while to do and a lot of materials to do so he was getting ready to do it

Chapter 2
The Multiverse travel goes wrong

He had just thought of using all the research from the Videos and Books to make it where he could travel the Multiverse CTG10 also knew that it was dangerous but his curiosity made it where he did not care about it so after a week of making the device it was ready to use but he used it and it worked but thats when everything went wrong the device didn't just send him to another multiverse but also gave him Dark powers too but when he finally did it when he used it to get back the whole Universe was a desert wasteland The moon split in half and nothing left that survived but a dragon known as the UnKnOwN EnTiTy was the only thing that survived it but after that he regret everything he did and he was no longer CTG10 he was now ERROR he then went back in and knew what he was going to do he was going to destroy every multiverse because he didn't have one so he would destroy the rest of them he went to another universe to find a way to fix his but it was too late he had already destroyed it and he was going to destroy the rest so the first thing he was going to do was go to the first he was going to destroy it was Earth-199987 when he got there he was still getting used to using his new powers and when he got there the sky started Glitching and portals opened around him but he also accidentally sent CTG24 to another dimention knowing that he went to stop him from making things worse but that was the start of Journal 3 Glitched Pages.

Chapter 2
CTG24, SMG4, And ERROR?

Back in Earth-199999 CTG24 and MCU24 are talking about what happened two years before and how they need to defeat SD-32 since it had both of their energy but CTG24 looked behind MCU24 and saw ERROR walking across the street and was shocked that ERROR didn’t die in the events of Glitched Pages and told MCU24 and text Shadow Knight about it before getting prepared for the fight against ERROR “MCU24 how is ERROR back he died from the building collapsing” but then SMG4 is calling CTG24 “Hey CTG24 I need you to come here quickly” then ERROR is with them "I know I tried to destroy our dimensions but listen we need to put that aside and focus a robot called SD-32 is coming to destroy both of us if he does he can destroy every dimension so we need to team up” CTG24 and ERROR now on the same team go to SMG4 to find out what he has to say “Why is ERROR here anyways we got a problem someone made a robot called SD-32 it has crystals containing both your energies so we need to stop it” SMG4 looking joins the team to defeat SD-32 with the team of five including CTG24, MCU24, ERROR, SMG4, and Shadow Knight they start to make a plan to defeat the robot they have to find out where it is and how to defeat it but before that they call CTG24_2 to see if he can help “Hey can you help fight SD-32 a robot with ERROR” but CTG24_2 hangs up after hearing ERROR “Okay CTG24_2 will not be helping us but we can do this” then Mario comes in “Mario is here to help” launches SMG4 across the room “Mario is going to fly for you” Mario spins flying up in the air launches himself at ERROR launching him across the room “I did I saved the world” then Mario runs away CTG24 looking shocked “Okay Mario is Definitly not going to be on the team” Mario runs back “can I too” CTG24 looking at Mario “You promise not to mess things up” Mario stand still “Spagetti” CTG24 looking confused “Good Enough you can come too” they then look for SD-32 while making a plan.

Chapter 3
SD-32 VS The Four Team

Mario looking ready “I CAN DO THIS” runs at ERROR punches him across the room “I did it I saved the world” CTG24 looking at Mario “He is on our team” Mario looking confused “OH” then SD-32 shows up through a portal “I GOT THIS” looks at SD-32 “I am going to fly for you” spinning Mario flies at SD-32 and gets hit across the room “Mario is No Okie Dokie” then ERROR and MCU24 hits SD-32 then Mario throws ERROR at him launching SD-32 through the portal and ERROR launched against the wall “I AM THE SMART… I AM THE SMART” MCU24 looks at CTG24 “who wants to vote Mario off the team” SMG4 and Mario Raise their hand “Why are we raising our hands” SMG4 and MCU24 look confused then a portal opens and SD-32 comes out Mario looks at SD-32 “HI you piece of trash” before getting thrown out the window SMG4 looks happy “At least I can think now” SD-32 then uses Blue and red energy to make a sword before it can do anything Mario came back and hit it in the portal again “I did I saved the world” then they all go to the dimension to defeat it but it was completely gone and they had to find it they were going to split up into teams SMG4 and Mario on the same team went in one direction while CTG24, MCU24, and ERROR went the other way to find SD-32 they go in different directions but SMG4 and Mario quickly spot SD-32 SMG4 looks at it “okay Mario we need to stay quiet and” but then Mario runs at it ruining the plan mario jumps at it and get hit away before SD-32 runs away “Mario you let it get away” but the second team looking for the robot see a portal open and SD-32 come out but it then attacks them with laser swords that go in ERROR and CTG24s direction then comes back at SD-32 when it missed and the robot then hits CTG24, ERROR, and MCU24 into a portal and they are then where they are now with SMG4 before the robot runs away again.

Chapter 4
The Return of Jibanyan

They are now with SMG4 and Mario but they lost SD-32 and have to find a way to find it but then they find out they are actually in Springdale and find Jibanyan but then the sky glitches and SD-32 comes out of a portal then Jibanyan uses Paws of Fury at SD-32 but does not do anything then Nate summons Robonyan and it does Rocket Punch at SD-32 and then SD-32’s arm comes off it opens a portal and retreats to fix its arm Robonyan looks at nate “I am going back to the future” then a blue portal opens under him and he goes in Jibanyan had saved them again and they are going to make a plan to capture SD-32 so they needed to get ready so they need help but a new help would come from a blue cat from the past named Hovernyan also known as Nathanyals friend but they need a plan to find SD-32 but they don’t know where to start but Hovernyan helps then by telling them if they need to got to the past to fix something to come back so they are not going back to find SD-32 and stop him from destroying Dimensions

Chapter 5
SD-32 Vs CTG24_2

They need a little more help so they go to Dimension-199986 to find CTG24_2 so they can stop SD-32 but CTG24_2 knows ERROR is going to be there and does not trust him but he joins them because SD-32 might destroy more Dimensions and they need to stop it but then a portal opens and SD-32 comes out CTG24_2 hits it and its other arm comes off so it hits CTG24_2 away and gets its arm to reattach it then opens a portal to go through but then MCU24 realized that SD-32 was staying in the shadows to stay safe and that's why it keeps running away from fighting so they are waiting for it to come back but it comes out quickly and starts teleporting around while fighting CTG24_2 and hits him into a portal but CTG24_2 uses his Blue energy wings to fly and then SD-32 comes back and uses laser swords to throw at CTG24_2 but makes them come back but it can't hit CTG24_2 because he was too fast it then get hit and it arm falls off again and then its second arm gets hit off so it goes through a portal so it can fix its arms and then the sky starts glitching again and stops so they had beat it again so they needed to get ready to fight.

Chapter 6
The End of SD-32

They got ready to fight but they had to find out where SD-32 was but it quickly jumps out of a portal throwing hundreds of Laser swords at them but MCU24 uses his device to use another attack and it was an Absolute Solver then SD-32's arm gets ripped off by the solver but SD-32 is going to use its other arm but then MCU24 uses the solver to rip off its other arm before using the solver to hit off the robots head and the robot was dead but then the sky started to glitch then the robot has red and blue energy come out then a red entity with a blue eyes and mouth comes out as the shape of the robot its called Ultra-32 then it starts pulling parts of the universe into Dimension ten and the team gets pulled in to dimension ten when they are in there parts from millions of Dimensions are being pulled together and a giant Ultra-32 starts to attack them but Jibanyan and Hovernyan comes back to help them but it hits them away quickly and uses a solver to throw rocks at ERROR and CTG24 but then Steve builds a wall that keeps the rock from hurting anyone but Ultra-32 was trying to make one universe and stop everyone who got in its way.

Chapter 7
A new Danger

SD-32 had now turned into Ultra-32 and is combining dimensions into one but it is trying to stop the team from stopping it plus Jibanyan and Hovernyan got hit out of the way and Steve made a wall to save them but Minecraft Clay and Mario came back SMG4 Mario looks at the other Mario “who is that” then Minecraft Clay hits Ultra-32 with his sword but it does not do anything but they needed to find a way to stop him but they needed help from others when nate comes up and says they can use the Yo-Kai Energy and transfer it to Hovernyan and Jibanyan but whisper gets in the way and Whisper and Jibanyan turn into Buchinayan then Darknyan and Buchinyan are ready to attack but they need a distraction thats where SMG4 Mario comes into place and ¨I am going to fly for you¨ are starts spinning where he is flying around and then ERROR and CTG24 use their energy to defeat Ultra-32 while SMG4 catches it on camera so he can post it on his YouTube channel so lets start SMG4 Mario jumps on Mario's head and lands in front of Ultra-32 ¨I am going to fly for you¨ as Mario flys in the air Nate and Nathanyal use the Yo-Kai Energy and Darknyan and Buchinyan go to there place and Darknyan flys Buchinyan up in the air ¨be careful your going to make me die again¨ SMG4 looks at it while recording it on his camera and ERROR and CTG24 starts using their energy to fight Ultra-32 and Darknyan stops really high over Ultra-32 ¨Its time for you to be the hero¨ Buchinyan looks down ¨I don´t want to be the hero¨ and Darknyan throws Buchinyan 100 miles per hour ¨Its time to face my Flury of Fury¨ and hit Ultra-32 a trillion times and it looks like it disappeared and a rock falls on SMG4s camera ¨No my Camera phew its okay¨ then Ultra-32 the size of the robot comes out of the ruble and then gets hit by Minecraft Clay and Mario and no longer exists and they had defeated SD-32 and ERROR was now on there team they had won the battle and can now live there normal lives for now but before that CTG24 looks at ERROR and MCU24 ¨Wait where is Shadow Knight¨ and turns out Shadow Knight was left at Earth-199999 thats how the next part of the story ends.

Chapter 4
The Past is Coming

They went to Dimension-10 to get ERROR to help fight his future self WPNZ and the Chaos Ghost come through the portal “Why do we need help again” Chaos Ghost looks around “Because the Four Team is stronger than us we need a team they beat Fatal Error we might need his help too” ERRORs past self shows up “Who are you and why are you here” Chaos Ghost looks a ERROR “We need your help to defeat MCU24 and CTG24 and your in their team so we need you to keep your future self away also Ethan is Alive” ERROR looks back “Ethan is dead the whole universe turned into a desert wasteland but I will help you beat them” WPNZ looks back “Why do you want to help” ERROR looks back “their my enemies too” The Chaos ghost opens a portal “your gonna like the next team member idea his name is Fatal Error and don’t make him mad he can kill all of us” they go through the portal to get Fatal Error to help them but they had to find out how to get him to join the team and the plan was to get him out of the prison Bill Cipher was at but there was a problem the place was on high security they needed a plan to get him out.

Chapter 5
The Prison Escape

They had a plan to get him out without them noticing but they also needed to get him to join their team too but the first step was that ERROR would turn off the power to Fatal Errors prison cell then goop would unlock the the door and let him out then Chaos Ghost would open a portal for them all to go through after they made the plan they went and finished the plan but when people went to stop them WPNZ came in to help then they all then went through the portal where they convinced Fatal Error to join the team but a portal opens under them and they are in a factory covered in black ink the place was called Joey Drew Studios but an Black figure comes out of the Ink called the Ink Demon or Bendy it was a creature made of the black ink it turns out that the Ink Demon was actually Joey Drew but the Chaos Ghost then decided that the Ink Demon could help the team but the Ink Demon went to attack them before they could invite him to join the team they were ready to fight.

Chapter 7
Unknown Ending coming

They knew the Chaos Team was coming and that they might not be able to stop them but they were going to get ready the four team included MCU24, CTG24, SMG4, ERROR, Mario, and CTG24_2 but the Chaos team had WPNZ, Fatal Error, Chaos Ghost, Bendy the Ink Demon, Past ERROR, and past SMG3 but both sides were now ready for the fight they were going to find a way to stop the Chaos Team but they didn’t know that WPNZ, past ERROR, and past SMG3 came from Branched Timelines but one thing that had a question was could an character be an second Anchor but stop being one and was MCU24 an Anchor of the Marvel Cinematic Universe for a short time during The Ender Nether War that's a question that could be asked about that point in time but both sides are ready for the fight this was a fight that was not a prophecy but the only prophecies coming was MCU Secret Wars and Doomsday MCU24 knew Spider Man was Peter Parker that's the only thing he knew about the Avengers so far.

Journal 3
INK DEMON COMES
YOU THOUGHT
YOU KNEW THE STORY

Chapter 1
The Start of the Bendy Story

The Story of Bendy in the Multiverse didn't start with the Chaos Ghost but with Something else our story starts with the events of Robo-Knight when he went through the Multiverse Bendy was one of the ones that tried to attack Robo-Knight and was put in the dungeon area of his ship and it was the start of the story with him in the Multiverse and the start of another story the start of the Chaos Team and the start of the multiverse Bendy Saga when the Ink Demon was looking for Henry it was taken from its dimension but the next part when its released it was in the war between Multiverse and Robo-Knight but it was taken back to its dimension at the end but it was not the end it was a bigger story than that it took place in more multiverse the backstory of it changed due to a branched Timeline but when it was meant to be take the character to its universe but it was taken to another dimension started the backstory of Bendy and his journey to his dimension

Chapter 2
The Start of the End

The Ink Demon was sent to a dimension where he had to find a way back to his dimension but he was in a universe made entirely out of squares and it noticed two characters, them being Minecraft Clay and Steve. He was going to find his way back to his dimension but he didn't know how to do that yet but he was going to find out how he was going to do it but this was the start of the story of Bendy the Ink Demon and his journey through the multiverse he tried to stay out of sight but when the character continued through the blocky realm it found a book it said how to go through the Multiverse it was a crafting recipe the character would have to get items including glowstone, Creeper Head, end stone, Grass Block, and an End Gateway block his journey was starting his way home but he would have to go through millions of dimensions he went to get materials

Chapter 3
Minecraft Universe

The Ink Demon was going to get materials but days past and he finally got the creeper head from a creeper getting exploded but he picked up lava with his bear hands and threw it into some lava making obsidian he did it twelve more times and picked up the obsidian making the portal and he lit the portal and went in where a ghast came to attack “Pathetic” he launched the fire charge back at the ghast he then continued to get glowstone he went back through the portal into the overworld where Herobrine spotted him “I don’t know who you are or where your from but you better leave” the Ink Demon didn’t care he continued anyways “You better stay out of my way” Herobrine warned the Ink Demon before disappearing Herobrine went to stop the

Nether King but the Ink Demon still continued to get the ingredients he only needed two things first end stone and second end gateway he brought TNT to get it he first broke end stone and killed the Ender Dragon “This is too easy” he then gets to the end gateway portal and uses the TNT to use a glitch and get it he goes back to the overworld and crafts the recipe he had crafted an Portal Gun he used the portal gun and the power was used up he went through the portal to the next Dimension he had to go through.

Chapter 4
Five Nights at Bendys Ink Machine

The Ink Demon went through the portal he was now in a dark lit office with four animatronics coming he closed the doors but the power then went out “What the hell” he then went looking for a power source but an animatronic was coming he turned into a puddle of ink and went through the door and then went back into the ink demon form where he found a book that mentioned a past security guard who went missing saying stuff about the Bite of 87 and about someone killing five kids but he was never found and neither were the kids the last thing it said was to look inside the animatronic suits that the animatronics recognition was messed up and they would think you were an endo-skeleton and stuff you in a freddy suit but that gave the ink demon an idea he went to parts and service he then destroyed the Endo-Skeleton thinking it was alive “wait thats an endo-skeleton they should be putting that into a suit” he then turns into a puddle of ink and goes inside the freddy suit he was going to stay inside the rest of the time so the others don’t attack him but when he went to the office he saw a Golden Freddy Springlock suit he rubbed his eyes and it was gone all that was left was a page in a book it said “ITS ME” he then found an taser that he used to charge the Portal gun he turned into a puddle of ink and left the freddy suit and turned back into ink demon form then opened a portal and went through to another Universe.

Chapter 5
Poppy Playtime

The portal gun was low power again but this time he was in a factory on the way it said PlayTime CO but he continued through the building he found a VHS Tape and put it in "Hi, my name is **Leith Pierre**, and I'm the Head of Innovation here at the Playtime Co. toy factory. If you're seeing this, then you're trespassing. Yeah, we play this little tape on loop whenever we close the factory for the day. So, trespasser—just to make you aware: while we pride ourselves primarily on our high-quality toys and excellent childcare, we also pride ourselves on our **security**. For example, this facility is full of motion triggers which, if set off, will alert the local authorities. And that’s one of the more **tame** aspects of our security system. No spoilers. So, you’ve got my warning. It’s your choice now. I just hope whatever you’re doing is worth it." the ink demon then continues but hears a noise in a room and then saw a giant Huggy Wuggie statue in

the middle of the room he then goes to a door but its locked he then turns into a puddle of ink and goes through going back to ink demon form he continues through and find a grab pack in an room he gets it and goes back but the door is unlocked and the Huggy Wuggie statue is gone he turns around to be chased by Huggy Wuggie he runs into some vents where Huggy Wuggie is still chasing him when he gets out of the vents he pulls a block and Huggy Wuggie falls down hundreds of feet of stairs but the ink demon finds a power source and charges his Portal gun opening a portal and going through he had two more dimensions to go through to get to his dimension.

Chapter 6
SMG4 VS Ink Demon

The Ink Demon uses the portal gun and starts looking for a power source then Mario comes past the Ink Demon then saw a castle that looked like it had a blue hat on top of it he goes in and turns into a puddle of ink goes into a room and turns back into an ink demon form he then notices a computer with SMG4 written on the screen he then notices it was SMG4 dimension he had a chance to get revenge on SMG4 and The Four Team he then decides to get his revenge on them sure they didn't start it but they were the reason that he was sent to the wrong dimension and he knew that so he was gonna get revenge and this was the start but that idea was decided but before he could do anything SMG4 walks in "Who are you and why are you here" The Ink Demon looks at him "I AM ALIVE AND I GONNA GET REVENGE" it then notices a battery he takes it charges the portal gun and opens a portal but SMG4 hits the portal gun out of his hand it break into millions of peices "YOU GONNA REGRET THAT" the ink demon jumps through the portal to the MCU also known as Earth-199999 where he is in MCU24 room "The time as come where I get revenge" MCU24 walks in to see Bendy the Ink Demon "Who are you" The Ink Demon slowly walks forward "The End of your story" It then forms a sword with the black ink.

save my friends” he goes through the portal to SMG4 dimension with the UnKnOwN EnTiTy to help his friends win and defeat the Unknown Being and save the multiverse and also find and defeat the Chaos Team they were back and ready to fight.

Chapter 7
The Four Team is Back

MCU24 goes through the portal and meets up with the Four Team to make a plan to defeat the Unknown Being Error had an idea “How we do the same move we did with SD-32 the first time” MCU24 looks at Error “This is a difference at that point we overloaded the system doing it this time will make him stronger than before” they had to think of something but then Robo-Knight remembered something “We could make another SD-32 but this time we use it to take the Unknown Beings powers or End Times powers how ever you say it” they had the first piece to defeat him “Then lets do this” they think their ready to fight but CTG24 stops them “what after he will still be powerful we don’t know he is stronger afterwards” they needed a back up plan in case things go wrong thats when SMG4 comes in “So in my storage is the time machine that we used to save the world from Robo-Knight who is actually in this room I probably should not have said that” Robo-Knight comes back into the discussion “I don’t want to undo anything I have changed in decisions and thoughts so you don’t have to worry plus what is this stupid guy going to do anyways he can’t escape that dimension he can only send copies of anyone in the multiverse look if we stick together we will win I learned that from SMG3 Weird right” SMG4 mind was blown “SMG3 KNEW YOU WERE STILL ALIVE” Robo-Knight came back “He didn’t tell you an hour ago” they go back to ideas MCU24 then relizes they have their plan for End Times downfall “Okay we have a plan for End Time or Unknown Being so confusing we call him both names randomly but there is one more casualty the Chaos Team” they had to find out what to do when CTG24 comes back “We know some of their personalities Springtrap is one MCU24 defeat and got to turn sides in a branched timeline of the Game universe so he can deal with him then we got Fatal Error every one of us know his weakness he is too confident” Robo-Knight comes back in “Who is Fatal Error” CTG24 relized that Robo-Knight was not there “He almost killed all of us also then there is Bendy and nobody has experienced him but the Nether King he is weak now since he does not have his army WPNZ is one SMG4 and Mario dealt with” Mario stops him “BORRRRRRRRRING” MCU24 comes in “You know what ignore the Chaos Team its there leader we need to beat that is Chaos Ghost who has gotten stronger over time he is the problem he released End Times A.K.A Unknown Being we need to take him out first” Ethan then comes “First he is not the strongest remember Fatal Error Absorbed his Energy while he was possessing Reality-0 You thats a problem MCU24 is the only one who can beat him how did you do that anyways” MCU24 looks at the Four Team a tear comes from his eye “Its been long enough so I guess I can tell you so I was launched into a portal and Shadow Knights ghost was

there he said I was strong enough to do it but I missed him so much it got in the way and he said he will always be with me that gave me the courage to defeat Fatal Error my powers got stronger I used my full strength and did it in style and that style was my home Dimension things like Spider Mans webs but my energy, Thor's hammer made of my energy, Iron Man like Pulsors, Captain America's Shield but blue energy, and a lot more" they look at him "You saw Shadow Knights ghost he helped you why didn't you tell us" MCU24 looks back "thats not it I saw him in the dimension I was in he told me that I..." CTG24 stops him "Okay lets get back to plans and stuff this is hurting my brain" Mario comes in "You became the Nice Game" Error came in "You know what he means and if you don't he means you got stronger and more of a hero" SMG4 comes "Yeah you did but now we got a plan to defeat End Times and The Chaos Team so lets do this and if we fail we got one last chance"

Chapter 2
The Race Through Multiverse

They go through the portal but missiles come straight at them “WE ARE ALL GOING TO DIE” the ship explodes and now they are back at the time reverse spot “See thats why we use time reverse it makes it where when we die we come back” they go through the portal and dodge the missiles and continue but a space ship then comes through and they notice the Nether King “YOU ARE ALL GOING TO DIE” he fires a laser breaking the wing then flies away “Left wing failing were are going down” SMG4 then noticed they are about to go through a portal “IT GOING TO BE THE END” Mario throws 1-ups at the wing fixing it “I saved the world” they started flying through the portal again and the Nether King is coming again but they then shoot a laser at the ship making it go down into to the Nether “Well thats the end of him” they fly further but then notice the Chaos Teams main ship SMG4 then shoots Missiles at the wall then it breaks open and they fly in and get out of the ship where they find bendy but then SMG4 jumps out with an remade Ink Weaver and traps him in it then MCU24 opens a portal to the ink demons dimension they then throw the copy of the ink weaver in “Well its a good thing we thought to bring that” they continue till they see Springtrap he starts running at them with an axe he throws the axe MCU24 opens a portal and sends it back it hits Springtrap MCU24 opens a portal he falls in sending him back to his Universe “Lets go further” they then look further they then see the character that was about to defeat them Fatal Error he then grabs ERROR by the Throught “Lets see if you die or not now” but Fatal Error is shot and falls into his prison cell he was broken out of “I always hated Puzzles but he might have not been as bad as I thought I saw what happened it the other timeline we became friends again You will need my help” WPNZ was now helping them defeat the Chaos Ghost and End Times.

Chapter 3
An Surprising turn of events

WPNZ switched sides he had seen what happened in the other timeline since he knew what happened he would help The Four Team then return to his branched Timeline but he needed to defeat End Time and Chaos Ghost to save both the Multiverse and his universe but they needed to deal with the Chaos Ghost first “Okay First thing is that we need to go to Dimension UnKnOwN where we need to defeat Chaos Ghost but not alert End Times at the same time so be careful” they then fly the ship to the dimension and go to the power center for communication they destroy the device causing an alarm to go off they then hide in the shadows as Chaos Ghost and two Red Energy Chaos-32 ERROR and MCU24 both shoot a laser at one Chaos-32 while SMG4 and SMG3 use their Meme Guardian powers to use the second Chaos-32 as an power up for mario then they jump out but Chaos Ghost then hits them away “WPNZ you shouldn’t have switched sides” he then turns his hands into blades tries to attack the Four Team then hits out symbiote like tenticles to catch and throw CTG24 and ERROR when

they were running at him “Weak you think you can beat me your wrong” but WPNZ shoots at him but the bullets go inside of him he turns him blade into a gun and shoots them back at the Four Team “Thats something you didn’t think of I am like a symbiote but stronger” he then turns his hand into a hammer and tries to hit ERROR but MCU24 uses his Blue Energy sword and hits the Hammer hand off of Chaos Ghost arm “You don’t know who is stronger” ERROR and CTG24 use a laser beam at Chaos Ghost MCU24 then uses his blue energy to make blue energy sword and throws it at Chaos Ghost hitting through his arm but MCU24 then Throws an Captian America like shield made of his blue energy hitting the Chaos Ghost MCU24 then Uses Iron Man like pulsors while Robo-Knight uses an energy beam at Chaos Ghost While SMG4 and SMG3 both start shooting at Chaos Ghost Mario then just lays down The Chaos Ghost was about to lose but he opens a portal “This isn’t over” he goes through the portal to an unknown dimension they then only needed to defeat End Time.

Chapter 4
The Last Fight

They then go to fight End Time and start to fight SD-32 Army but they are quickly taken out but they then are back to where they were before they started to fight the army SMG4 looks at the others “Well I said we needed them” they then see portals open and SMG4 Friends come out and Luigi comes “I thought you needed help” another portal opens and MCU24 and CTG24 friends come out and Robo-Knight comes “I heard what happened” the battle had just started “Okay we need to get to end time” Robo-Spider then starts destroying more Chaos-32 robots then Chaos Ghost comes back “You don’t think I was gone did you” he then tries to attack the Four Team but Minecraft Clay, SMG1, and SMG2 come and start to fight SMG1 and SMG2 both use their Meme Guardian powers against Chaos Ghost “If you mess with our friends you mess with us” Minecraft clay uses a bow and arrow to shoot flaming arrows at Chaos Ghost and then hits him with his sword The four Team continue to End Time but then the Broken SD-32 comes back and starts destroying the Chaos-32 robots as they continue they then have to get past a lot more SMG4 looks an MCU24 “I got an idea” he then brings out a treasure chest but Chaos-32 robots come and try to stop them “Here is where the ink comes in” they use orange paint bombs then use the ink boi to sink into the ink and then come out and destroy the robots he throws the chest down and hold hands with SMG3 they use the Meme Guardian powers to move the meme energy into Mario “I miss Terence” Mario now a giant floating head gets them to the end but some of the Choas-32 robots are flying in the air but CTG24_2 comes “thought you would need my help” he destroys them and continues to help but they are almost there but Nether King is about to hit them but Herobrine hits him away then hits him with a sword killing him for good this time “No more coming back” they continue “we are almost there” they look back at the millions of friends they made “I wouldn’t change this if I could” but Chaos Ghost starts going their way but is stopped Robo-Spider “With great power” MCU24 looks at Robo-Spider “Comes great responsibility” they then get there “Ink Boi now” they all throw paint bombs then come out

and the New SD-32 is activated MCU24 makes a portal above End Times but he grabs MCU24 “You think you can beat me big mistake” but the new SD-32 comes out and absorbed End Times Energy and the Millions of friends run to attack End Time as all the Chaos-32 robots power off “We are strong” End Time is taken out and Robo-Knight then traps him in the vault again “That the end” their friends return to their dimensions and the four team won “We did it” Mario Runs past “BORRRRING” SMG4 and his friends go through a portal with Robo-Knight “Bye” and that's the end of the story till Journal 3 MCU24 Secret Wars and Doomsday

Chapter 2
CTG-01 Returns

He was looking for a clue on where the Chaos Ghost was in Dimension-10 when he saw someone he could not tell who it was but it looked like it was MCU24 but it wasn't it was CTG-01 who was lost in Dimension-10 after Fatal Error was defeated he was left in Dimension-10 but WPNZ found him and decided to ask if he had seen Chaos Ghost "Have you seen a blue glowing symbiote like character his name is the Chaos Ghost" CTG-01 looks at WPNZ "What year is it I have never seen Chaos Ghost last thing I remember was finding some cave with End Language saying things like MCU24 is going to defeat Fatal Error or some type of End Time guy is going to appear and my universe being destroyed" WPNZ then thought remembered all those events he then knew that something strange was happening but then he remembered how MCU24 said that the name in Journal 1 book was Clay Throwfire and in another was CTG-01 he then knew it had to be CTG-01 but then thought of something "Hey want to join me I am trying to find Chaos Ghost so he can be arrested by the Four Team" CTG-01 agreed to it he had not found anybody to help him all he knew was that his own dimension was destroyed and now he was not alone but WPNZ was not alone Either he had Toomp and now CTG-01 to help him plus he would have had Puzzles as a friend if Chaos Ghost didn't cause the branched timeline but he knew that the branched timeline happened for a reason and he was going to find how to continue his story

Chapter 3
WPNZ, Toomp, and CTG-01

WPNZ had just met CTG-01 who was one of his friends now the only other friend he had was Toomp but he was going to help all of them find a way to help the Four Team protect the Multiverse but the next place they went was SMG4 dimension to see if find SMG3 and Robo-Knight and get some help with ideas to find Chaos Ghost they went to their destination “This is just a Coffee Shop how is this going to help us” WPNZ looks back “Its not the Coffee shop its who owns it he used to be a criminal and his friend is Robo-Knight also tried to destroy a dimension so yeah thats why we are here” they go in and SMG3 notices them “Oh hi guys why are you here are you here to buy some Coffee or how about some bombs” Toomp looks around but didn’t see Robo-Knight “we are here to see if you have any ideas where Chaos Ghost could have gone also where is Robo-Knight” SMG3 gives Mario some Spaggetii “I think Robo-Knight is at ERROR and Ethans dimension but I don’t have any ideas where Chaos Ghost could be I am not that type of villain” Mario looks at them “Well that was sure fun I had a great time” and walks out “Also who is that looks strangely familiar” WPNZ starts thinking “You know what I guess we will go to ask Robo-Knight what Dimension was it” SMG3 goes to get a note “the note says Universe-C21 at least thats what he sent but I guess I will see you later” WPNZ, Toomp, and CTG-01 go to the next Dimension to ask Robo-Knight

Chapter 4
Robo-Knight Returns

They go to Dimension Universe-C21 “Okay we are here” CTG-01 looks around “this looks peaceful” they then see Robo-Knight “Hey Robo-Knight do you have any ideas where Chaos Ghost could be” Robo-Knight starts thinking “Could be a lot of places but the best idea is somewhere abandoned or from his past” CTG-01 remembers that name “Did you say Chaos Ghost one place from his past Reality-0 where we both came from but its destroyed” WPNZ thinks “Maybe we should go and check if he is there also Toomp is kinda like a symbiote too” Toomp looks at WPNZ “What you are like one” they then go to the remains of Reality-0 where it all started every minute CTG-01 remembers more of his past but WPNZ gets a message on his phone “  ” WPNZ notices “WHAT THE HELL IS THIS” CTG-01 looks at it and takes the phone and access a website “It says You Do not know what is coming" then the Chaos Ghost is spotted but they find a cave with markings “its the symbols again” it showed  CTG-01 writes it down but it then changes to  after he writes that down it changes another time  after he writes that down it changes one last time CTG-01 was writing “it says I am the Shadow King” the note book bursts into flames “I just bought that notebook” The Chaos Ghost turns around “You Can’t stop destiny” he then

disappears into another dimension and leaves a piece of paper behind “It says You Can’t stop destiny I will be back so be ready I will be with the Shadow King you can’t stop us also WPNZ you shouldn’t have turned on me you have just made your largest mistake yet I WILL BE BACK” they needed to contact the others before its too late but then the UnKnOwN EnTiTy is the only one CTG-01 reconized out of any of them but while he was in Reality-0 he found a file he brought it and looked inside it was files it showed details about MCU24, ERROR, CTG24, SMG4, Mario, SMG3, UnKnOwN EnTiTy, WPNZ, Robo-Knight, and many others he showed it to him one thing they knew is that the Shadow King was coming.

Chapter 5
THE CLIFFHANGER

Chaos Ghost appears in a dark dimension made of shadows “They know we are coming but one thing for sure we can beat them plus we might need help from Fatal Error he is the only one who knows about CTG-01 he might be the problem we can’t fight the MCU cause of the Avengers but why can’t we take over Reality-199987 also known as CTG24’s home dimension” The Shadow King comes he was made of shadows but with red glowing eyes “We are about to start the fight to control Earth-199987 but there is one thing in Reality-0 we might need its Journal 4 it holds details about the Future that nobody knows about so we are about to start” The Chaos Ghost was ready to fight.

Chapter 1
The Branched Timeline

The Shadow Kings story starts with Niles from a branch Timeline of SMG4 Dimension where Niles wins but the universe it completely destroyed at the end of the SMG4 Revelations movie instead the the SMG4 team but in the process the God Box is still destroyed but The SMG4 crew are left floating in space forever but along with that SMG0 still dies in the end but with no Avatar the world begins to darken and get destroyed Niles could not make a Perfect Universe anymore and instead becomes the Shadow King but that's not the whole story for the events it starts where things started SMG4 where he instead finds a way to get to his destinations by himself through SMG4 USB ship but it is destroyed with the God Box in this ending

Chapter 2
The Start of Shadow King

The Story starts at an alternate dimension to SMG4's where Niles opens the portal without Melony SMG4 looks "What opened the portal" Niles then reveals himself by fading into existence "Sorry but I got a perfect Dimension to make" he then goes through the portal "Who was that" they go out where they get hit by a meteor after that they see SMG1 and SMG2 "We need to call upon the power of our guardian pods once more" SMG2 comes "We got it from our super secret hiding place" SMG4 and Three look at each other "Under our Mattress" SMG3 gets up "really that where you hid them" SMG3 and Four's guardian pods turn into a spaceship "okay how do we do this" Mario looks at them "Can I come too" SMG4 and Three look at him "do you promise not to touch anything the whole world is at stake" Mario looks at them "penis." SMG4 looks at him "Good enough with me" they then use the ship to get to the second Dimension "Wow where are we" SMG4 looks around "Reminds me of selling Merch" then SMG1 and SMG2 communicator turns on "This is the Space In between" then the creator of the show comes through Luke Lerdwichagul then passes through and looks at the box "HEY KEV WHY IS MY BOX OF USELESS JUNK GLOWING Eh I'm sure its nothing" and walks out of the room Mario looks "MAN thats one thick boy" they then get to the God Box "Hey Four you go on in we got to find a way to close the God box" They then go inside and see an Meme that looked broken "WHAT THE HELL IS THAT" SMG1 communicator comes on and turns around then turns back "So the legends are true that an anti-meme universes are destroyed then Fragments and I guess the Memes end up here" then they get chased by an anti-meme SMG3 takes the wheel and puts it at full speed heading towards a universe fragment "Three your gonna kill us" Mario panicks "WERE ALL GONNA DIE" SMG3 then pulls up right before they get hit "See we did it" they then check the other corrupted universe fragments along the way and destroying an bootleg FNAF universe when they spot Niles ship.

Chapter 3
The Fight against Niles

They then spot Niles ship “Yes I knew you would be here at the perfect universe I was making just for us” SMG4 ship pulls up “I don’t know who you are but you better stop before we make you” Niles ship turns around and is shooting at them they try to fly away SMG3 takes the wheel and turns up and behind Niles ship but they get hit my Missiles “Major damage to left wing” Mario is panicking again “We are all gonna die” SMG3 and SMG4 held hands and use their Meme Guardian powers to use Anti Memes Mario tries to stop him “NO SMG1 and SMG2 said its dangerous” but they continue to do it “Oh no” it explodes sending SMG4 ship and Niles ship flying towards the Universe Fragment where SMG0 find the SMG4 Crew they later woke up “Oh what happened” Mario looks at him “Remember you and Three went all crazy and blew us up back there” SMG4 looks down “Oh right” SMG3 looks at SMG0 “Who the hell are you” SMG0 looks at them “I am SMG0” SMG4 eyes open wide “SMG0 your not the one we fought back there” SMG0 looks confused “What OH NO I AM SO SORRY IF HE HURT YOU” SMG4 looks at SMG0 “slow down who are you talking about” SMG0 looks at SMG4 “Niles” SMG0 tells his backstory of the Internet Graveyard and the God Box and how his friend Fred died “Oh no Niles is coming for you YOU NEED TO HIDE” Niles breaks through the roof “Finally I will have an Avatar of my own again” SMG0 looks at Niles “You don’t have to do this we can stay here are forget about the past” SMG0 looks at him “NO WE ARE GONNA MAKE THE PERFECT UNIVERSE” SMG0 and Niles combine to make Eldritch SMG0 SMG4, SMG3, and Mario get on the ship to fly away “I wish Terrence was here” SMG1 communicator pops up “There is no way to close the box we have to destroy it” they are about to get out but Eldritch SMG0 breaks the ship leaving them in the god box “WE CAN’T HOLD IT ANY LONGER” it falls in destroying the God Box and sending the SMG4 crew into space and makes SMG0 die Niles then had in a way won but with no avatar the universe was dying “I can’t make the perfect universe again” he then had the powers to travel the Multiverse “But I can be a villain maybe End Times or maybe the Shadow King I am coming so get ready” That is the origin

Chapter 4
Teaser for Future

SMG4 then gets an email from the Shadow King “you might not remember me I am from an Alternate universe also you won’t beat me this time SMG0 is not here to help you so get ready I AM Niles” SMG4 then is confused about what just happened.

NILE'S JOURNEY

PART 1

Chapter 1
The Start of the Journey

Niles is then hopping through the Multiverse when he starts making some branched timelines and it started with Poppy Playtime where Huggy Wuggy spotted him and tried to attack Niles then faded out of existence where Huggy Wuggy could not see him but he then finds a grab pack and electrical hand put he then faded back into existence and shot one hand at the electric and one a huggy wuggy killing him “Take that you idiot” he looks around the place when he finds a way down he continues down until he gets down to a town like place “where am I” he then saw something and went in the direction of it and it was Catnap “Go away” he then opens a portal sending it to random universe and Niles continued further and found a lab with poppy flowers in front of it “Where am I” he finds an VHS Tape and puts it in "Hi, my name is Leif Pierre, and I'm the Head of Innovation here at Playtime Co. If you're seeing this, you must be very, very lost. Well, rest assured friend, our state-of-the-art laboratory is just up ahead. Why don't you just go on inside and tap one of our scientists on the shoulder? Tell them you're lost. They'll be glad to help." it goes silent for a little bit "All right, all right... Let's be honest. You're not supposed to be here. This is the single most high-security, high-clearance section of the whole factory. When someone finds you down here, you will be shot. And before you get any ideas, don't think you can just sneak away either. No. The second you put this tape in, it sets off an alarm. So if anyone's home, they know exactly where you are. Pretty nifty, huh? Security is very important to us here. If I were you, I'd start running." the room feels with the Red Mist and Huggy who tried chasing something had fallen hundreds of feet and then runs at the door banging on the door with it one arm screaming at Niles “Nice try” Niles fades out of existence and goes through the door and fades back into existence he then notices the Prototype “What the hell was that” he then follows it for a while until it goes into a giant doll house he stays hidden in the vent "I did what I had to. They are in a better place now." he notices Poppy "No... no, you're a monster!" the Prototype sounded mad "I built us a home and kept us safe. And you repay me by bringing in an outsider... plotting to destroy the only heaven you or I will ever get." he picks Poppy up by the face "I had hoped your time in the case helped you see reason. I see now this was my fault. You act like a child... because a child is what they made you." Poppy tries to get free "You're hurting me!" Prototype continues "Don't be afraid. I can fix you, Poppy... I can make you better." He then breaks Poppy's face "And you... the 'Outsider.' The 'Playtime Butcher' they call you. Shall we see what you look like... **wrong side out?**" But he was stopped by Kissy Missy then Kissy Missy picks Poppy up and runs with the Playtime Butcher but Niles gets away but makes a noise and the Prototype notices him “Who is there” Niles runs from the Prototype before getting caught “Who are you and why are you” here Niles looks back “You Don’t need to know” he travels universe but since he was caught by the prototype he was transported to you “Where are we” Niles then fades out of existence and then throws a sword at the Prototype but it was caught and thrown off the mountain “Now its time to die” but Niles opens a portal sending it to an unknown dimension

Chapter 2
The Next Dimension

Niles went to another dimension and is then in FNAF dimension “This place is to easy” he breaks the main 4 animatronics but he then notices Golden Freddy’s ten times but he blinked out of existence in a second “where and who are you” Golden Freddy appears in front him for a little bit “Get revenge on William Afton for us” Golden Freddy disappears “Who the Hell is that” he then walks away then notices the pages on the wall changed the first had an article headline "Kids vanish at local pizzeria" and said “Two children were lured into a back room on **June 26th**. A suspect was identified via surveillance.” he then looked at another with the headline being "Five children now reported missing" and said **“**The number of victims rose to five. A suspect was charged, but **bodies were never found**.” next headline "Pizzeria threatened with shutdown" and said “Health department reports a "foul odor," blood, and mucus around the animatronics' eyes/mouths.” a fourth headline "Pizzeria said to close by year's end" and said “After a long struggle, the restaurant is closing due to its tainted reputation.” Niles steps back “What the hells going on here” and turns back on the Mirror written in red it said “IT’S ME” he then realized the ghosts were in the animatronics but then William Afton in the Springlock Suit “You shouldn’t have wondered into this pizzeria or read those notes cause now you won’t survive” but Niles just picks up the Cupcake and it hits the Springlock suit and the Spring Locks fail and crush him leaving him stuck in the suit “I am not from this universe I DO NOT CARE” he then opens a portal to a third Dimension.

Chapter 3
Yo-Kai Watch RETURNS

He then goes through a portal “This place seems normal” Niles then finds a marble on the ground and hears a voice “LOOK IN THE MARBLE” he looks around “WHY SHOULD I DO THAT” he looks around “LOOK IN THE MARBLE” Niles looks around “If I do WILL YOU LEAVE ME THE HELL ALONE” he looks through and finds his first Yo-Kai it was Jibanyan “GO AWAY” before he can go he hears Jibanyan “Can you at least heyer my Styory” Niles turns around “If I do will you leave me alone” Jibanyan tells his story “When I was alive I had an owner named Amy but I died by getting ran over by an truck” Jibanyan stops “Is that it” Jibanyan shakes his head yes “But I made friends in the future like Nate Adams and MCU24 oh and SMG4” Niles turns around “Did you say SMG4 he is dead” Jibanyan looks at him confused “No he is Nyot” Niles had a realization that in the Multiverse SMG4 survived in some “Sorry Got to go” He goes through a portal he knew he could alert SMG4. Niles went to another dimension “I can’t let SMG4 know about me” he was now in a dimension where he found a new friend his name was Chaos Ghost “Hi there I am Niles have you heard of an MCU24 or SMG4”

Chapter 2
The Start of the War

They were starting the plan starting with capturing Robo-Knight, MCU24, ERROR, and Ethan then sending a beam at the vault looking thing putting the energy into the giant robot powering it up along with the army of SD-32 but CTG24 and the SMG4 Crew ruined it setting the rest of the Four Team free and when they were coming Fatal Error was going to beat them but another flaw happened WPNZ turned on them helping the Four Team and getting them to the dimension one flaw they didn’t expect could happen is that Robo-Knight could make another SD-32 and drain the power trapping the robot in the Vault again “Damn we were so close Chaos Ghost get out of there” later CTG-01 came back and they found Reality-0 a way to his hiding place “The Shadow King is coming” Chaos Ghost was sent back to the New Dimension then thats where they make the plan “We Were so close” Chaos Ghost comes “We need to make less flaws in the program of the plan” they found out they needed to make it where less flaws are in the idea “Less flaws okay lets do this” he comes closer “I am now the Shadow Knight for Plan B”

We got to defeat Niles no matter what happens” they are going to another Abandoned world for supplies “We need to make a new YouTube Remote but to do that we need a Nether Star, Three Iron, Two Redstone, and an Redstone Block” they land on the planet to look for supplies “The remains of this Timelines Internet Graveyard” he then finds Terrence top hat “I miss you” he then finds Iron “Hey we got some Iron” but SMG5 then finds the Redstone “Okay we need a redstone Block and Nether Star” S3 finds a Redstone Block “We only need a Nether Star its gonna be hard” they then get on the ship “To the SMG4 Castle make sure they don’t see us” they fly to the destination “Hopeful Nobody…” Glitch jumps on the Ship “Why does this guy keep coming back” he then gets Melonys sword “Lets end this” he sends a Laser Beam at him “Why are you fighting us all the time we tried to save our timeline its not our fault Niles came” Glitch stops fighting “You know why I lost everything and you could have not let Niles even get Melony's sword plus the fact the both our Avatar and deity Mario was killed by Niles then when Niles came back Melony Died before she could learn to use her deity powers” S3 looks at terrence hat “Everyone here lost everything we are on the same side we all want revenge against him we are building a new YouTube Remote plus the resistance was killed before we got here plus Puzzles, WPNZ, Meggy, Tari, Waluigi, and Everyone is gone Luigi and Shroomy probably died quickly we are looking for survivors” Glitch then looks at them “Then you better beat them without getting in my way” Glitch teleports away “Come on lets go get the super star its more powerful than the Nether Star” they go in and get the Super Star when they hear something SMG5 turns around quickly “WHO IS THERE” out of the shadows came the SMG4 Crew “What I thought you were dead” Boopkins comes out “We learned that this place is the one place that Niles can’t get too because of this” Boopkins bring out SMG4’s Nether Star Force Field Maker “We have a place safe from Niles I thought that would never happen” SMG5 comes out “Okay we need to find a way to defeat Niles though so lets get ready FOR MARIO AND SMG4” SMG5 gets out an crafting table and throws it to the ground making it full size “Okay lets finally make the new YouTube Remote” he crafts the YouTube Remote “Lets get help” He opens a portal to the main SMG4 Timeline and goes through the the SMG4 crew “Hello SMG5, S3, and the SMG4 Crew we need

help wait is that…” SMG4 comes through “Are you SMG5 the one the Glitch guy who keeps attacking us was talking about”

“So everyone from that dimension has lost everything to Niles plus SMG3 here lost Terence so We need to stop this alternate timeline Niles from continuing to destroy the Universe any ideas” S3 looks “He needs an Avatar to make his perfect universe we could use Mario as bait” SMG4 looks at S3 “We are not doing that if he destroys this universe we don’t have anywhere for you to live when he is gone so any other ideas” Mario drops a baseball on the table “Mario is gonna do something very illegal” everyone looks at him “THAT A TERRIBLE IDEA” Mario starts thinking “Well I have done all I can do” SMG5 looks “we could get rid of Chaos Ghost first he is like a symbiote MCU24 you said you know who spider-man is can we get his help” MCU24 looks at him “I didn’t meet him I know his secret Identity because I go through the Multiverse also I am not an avenger” SMG4 looks around “We don’t have any ideas well lets find a place for you all to live before this all starts plus then we need a plan” Glitch stops him “We could find a way to trap Niles you beat him in this dimension so we can do it again” SMG4 looks at Glitch “SMG0 is dead too that not gonna work” they then go to FM and X house “Hey FM and X we might need your help later but for now this town full of Mario’s well now another Timeline SMG4 Crew minus Melony and SMG5 are moving into a house over here” FM and X look at each other “WHO IS SMG5” SMG4 looks back “Another Timeline character” FM and X look at SMG4 “Well call us if you need any help”

Chapter 2
The Plan

They return to make a plan the next day “okay does anyone have any ideas now” Glitch then starts talking “Hey MCU24 has seen the Memories of any character from his home dimension and do their iconic moves so he should be able to hold Thor's actual hammer” MCU24 stops him “No I wouldn’t I am not that person I can make my own version of it with the energy that comes from my hands but Thor's hammer is no I am not worthy but I do have a plan what if we go to the past and get Shadow Knights help also CTG24_2 has not helped in a while mainly in the full story going on” SMG4 looks at MCU24 "Actually we might need his help but lets save this as plan B incase we lose the fight” they all agreed CTG24 starts “Shadow Knights helped everyone here he helped me become a hero he helped MCU24 get stronger at using his powers he helped SMG4 become a member of the Four Team and he helped ERROR become a hero so makes sense” SMG5 looks at the remote “Yeah CTG24_2 and Shadow Knight from the past for plan B” they were getting ready for a battle “YouTube Remote” they used that as a plan

Chapter 3
The Before Battle

They were getting ready for the next days battle “Okay we are going to get the YouTube remote to try and pause Chaos Ghost after that we go to battle Niles he won’t be affected by the remote so thats why we pause Chaos Ghost throw him in prison with a portal and go fight Niles it will work right” SMG5 and S3 thought they lost everything but they did lose there friends Mario and SMG4 “Yeah we need to defeat Niles for everything he has done” they then get paint from a store and paint the new YouTube remote Blue then the second Yellow so they can keep track with who has whos remote “Lets get ready” CTG24 calls CTG24_2 “We need you to stay close to the portal we might need you to pull Shadow Knight from the past to help us” he hangs up “Okay we are ready with that so we are ready to go” The SMG4 Crew get in S3 and SMG5’s spaceship and they fly through the portal the Four Team jump through the portal “I guess we are going” Glitch then teleports through the portal.

Chapter 4

The Next Chapter Starts

They are getting ready to fight but so was Nile he was powering more Metal-0 Robots they were not as strong but they were strong enough to fight he made twenty robots while they got ready to fight but over in SMG4 Dimension they are getting ready MCU24 looks around “I am trying to think about if we know what we are doing or if we are going to lose” SMG4 looks at him “We just gotta find a way to win we can’t lose plus I think when the Doomsday prophecy comes you will save your dimension just like we will now also look around everyone here has been wrong about something like ERROR thinking Ethan Died or WPNZ thinking Robo-Knight died or even CTG24 never thinking he would meet CTG24_2 before the Multiverse see we all deal with that” they then continue to help they go to E-Gads to get something to help he then gets out a laser gun “I think this will help us Thanks E-Gad” they go back to the castle and open a portal to get Robo-Spiders Help they go to get his help but over in the Nether a character wakes up it was the Nether King “Where am I last thing I remember was my ship exploding and falling into a portal” he gets up and walks further into the Nether not knowing what happened or that he died in this timeline but after Robo-Spider comes to help they were ready to fight but Niles didn’t come they waited a few hours but then Metal-0 Robots started showing up “Whoa there is more than one now” MCU24 throws a blue energy Mjölnir at it and it shattered and he turns it back into energy “we got to fight” then a portal opens and the UnKnOwN EnTiTy comes out flying right through the robots breaking them while coming to help “See this was easy” over at Niles the 20 robots status is on the computer and 20, 19, 18, 17, 16, and 15 are offline that left 15 robots “No I can’t let them win” He sends ten more and Robo-Spider uses Webs to destroy the Robots “I came to help right” not three more were of line the next two were destroyed by ERROR using his red energy “Why is this so easy” not 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, and 5 were offline “No this can’t be happening” he sends the last five MCU24 looks “We can do this” but the strongest with the master emerald breaks the other four leaving them offline it then comes to attack but SMG4 uses his GMod Gun to make him disappear and be destroyed SMG3 looks at SMG4 “YOU COULD HAVE DONE THAT THE WHOLE TIME” they knew they were gonna win now but Niles threw his computer “So Robots won’t work, Mechs won’t work, and even Master Emerald Won’t work what am I meant to do I need a new plan I guess I should wait to make a new plan” he gets the computer and sends SMG4 a message “You may have beat me now but don’t be happy I will be back later” he sends it.

Chapter 11
The End of Part One

They won so now they were returning all the items to their Universes starting with the Master Emerald they might not know where Niles is but they do know they will win the fight no matter what but thats when SMG4 got a second message “Remember me well I am back and what you did making my ship crash I think I might return the favor some time in the future” but over in SMG4 Dimension a tiny piece of the Master Emerald broke off and Metal-0 started repairing himself “Well if Niles will Abandon me and The Multiversal Avengers being my Enemy I guess I will have to perfect this universe before Niles destroys it” Metal-0 flies into space and Niles is in a space ship in the back the Broken Computer status screen pops up and the status changes from offline to Online.

Chapter 1
Nether Kings Return

Nether King's ship crashes into the Nether he then wakes up the next day in the middle of nowhere "What Happened all I remember is that SMG4 hit my ship into the Nether" he walks around until he then notices a Castle "I can probably fix my ship with some supplies" he goes in and is stopped by Herobrine "You should not have betrayed me you are banished and its gonna stay that way" Nether king had no home no communication yet but he then notices a chest near a portal ruin he opened it and it had broken PC Parts "What is this doing out here" he gets the chest and brings it back to the ship to use it for parts "I think I did it" he presses the button and it turns on "Time to get out of here" He flies into the place in between places "What happened" he had lost but thought of one more thing to defeat SMG4 "I know what I have to do" he gets the communicator and sends a message "Hey remember I crashed into the Nether and I am coming to return the favor so get ready" he turns the communicator off and continues flying.

Chapter 2
The Restart AGAIN

MCU24 realized that Metal-0 remains was gone "I think we have a problem" SMG4 comes out "WHERE DID HE GO" they look around and then the realization kicked in "Niles could have come and got him" they looked around more for the robot they realized that it was not over yet but it left something a chip controlling it "How could it work without a control ship it is not alive is it" They continue to go warn the others about it but in space Metal-0 is flying in Space towards Niles "It's time to make the real perfect Universe" he lands on Niles ship and Niles hears him on the roof "Who the hell is up there" he turns on the camera "Ultra-Infinity is on the ship" Metal-0 saws through the ship "I am not Ultra Infinity anymore I am Metal-0" Niles then runs to the escape pod "Have a nice crash" he uses the escape pod and the ship crashes into meteor "That should get rid of him" Metal-0 then flies out of the fire toward the "Creator what will you do" he hits the ship "Let your creation search for you" he hits the wing sending the ship falling into a nearby planet "Parachute" he jumps out and teleports to another dimension "I will find you" Metal-0 fly through a portal but over in the Mushroom Kingdom The Multiversal Avengers are talking about what happened MCU24 comes in "SMG4 discovered that Metal-0 has dissapeared and that Niles never came back it fixed itself and flew away we got a problem here" CTG24 thinking has an idea "Could it be tracking Niles to return" SMG4 looks at CTG24 "No nothing could locate a signal through Dimensions without a portal open" Robo-Knight then finds something in the other robot "These are not called Metal-0 they are called Ultra-Infinity" they then look inside there was no thing for tracking "The AI could be alive but if it is why didn't it fight us something is wrong here" they relized there threat got bigger

Chapter 3
Nether King Arrives

The Nether King is flying through space to reach his destination which is the Mushroom Kingdom in SMG4 dimension while he is flying it Metal-0 shows up “Niles Ally detected tell me where Niles is or I will destroy The ship” Nether King just flies the ship back and forth “Have it your way” Metal-0 destroys the wing sending it flying into the Branched Timeline SMG4 Dimension “You think thats gonna work” Nether king turns on fire wings “Fire detected but fire can’t be in space” Nether King then starts flying away Metal-0 flies faster “You Can’t escape from what he started” Metal-0 then hits the wing with water that turned to ice causing the wing to fail sending the ship crashing into the Mushroom Kingdom “Where am I” he looks around and notices a sign saying Mushroom Kingdom and a sign saying SMG4 “What happened here” he starts walking then hits a book “whats this” he reads it and it said it was from a resistance member he read it aloud “We have been trying to stop Niles he destroyed our universe and also killed SMG4 and Mario without Mario the avatar the universe started collapsing and Niles had a new Ally it was someone named Chaos Ghost they destroyed everything there is only a few of us left Niles has destroyed everything he is right outside now this might be my last mission log” he then started thinking “I helped Chaos Ghost he worked with someone named Niles who destroyed everything so he lied to me about everything then everything I know is a lie” he goes back to the ship to fix it and fly to stop Niles and Chaos Ghost he knew he had to work together with the Four Team for one time then he would leave and never come back

Chapter 4
The Past and Future

MCU24 then calls a meeting “SMG4, CTG24, everyone else there is something Shadow Knight told me that I think you should know now that its been a year or more since he died well a lot of years but he told me what happened in his timeline before he meet me or any of us first it started when they started fighting ERROR the UnKnOwN EnTiTy was not there and he might have needed the help they thought that they were ready but ERROR was too strong but they could not open the portal CTG24_2 from that branched timeline was distracting ERROR from the branched timeline Shadow Knight and that Timelines CTG24 got in an abandoned car and tried to drive away but ERROR hit it with his energy beam it flipped over and CTG24 from that timeline died CTG24_2 came to help when Shadow Knight got hit he had an energy field that he had then first done it saved him without a scratch but he got up and helped CTG24_2 find CTG24 he then found him dead but ERROR then threw a red energy sword killing CTG24_2 leaving only Shadow Knight after that he figured out his energy was half blue and red it then turned fully blue and he fought ERROR he ended killing ERROR before getting to Fortnite but that was all in his timeline not this one we are all alive in this timeline and ERROR became a hero in this timeline” He heard a knock on the door when SMG5 opens it was the Nether King “Do you know who this is” SMG4 comes to the door and noticed Nether King “What are you doing here and you worked with Niles why should we trust you” Nether King handed him a book “This is why I didn’t know what he did he lied to me he lied to you he had lied to everyone even though I hate to say it we need to team up to stop Niles he has gone to far after this is over we have a truce you won’t see me ever again unless you need my help” SMG4 started thinking “Who did you get to that timeline” Nether King looks back “something called Metal-0 stopped my ship said I way an ally to Niles and tried to kill me it’s also after Niles” SMG4 calls MCU24 “Hey we found out what happened to Metal-0 he flew into space to find and kill Niles I guess its AI got a consciousness of its own" he then lets Nether King come in.

Chapter 5
A NEW BEGINNING

They teamed up with the Nether King to stop Niles thats when an Idea came up they trapped Chaos Ghost they could ask him some questions they then go to ask him if he knows what he knows MCU24 walks in “What do you know about Niles and Infinity-0” Chaos Ghost looks at him “I don’t know what an Infinity-0 is but Niles plan I don’t know that but what I do know is that Niles is trying to make the perfect universe Also I only joined him because my universe got destroyed by Animatronic-10 we hired Fatal Error who had possessed CTG-01 but he would have been stopped but the TVA or whatever they are said that my universe would be destroyed to save yours and I was locked in a box I was a symbiote from reality-0 thats all I know about anything from both my past and Niles other than in the past Niles used a big robot called End Times and that he killed SMG4 and Mario from the branched Timeline” MCU24 looks at him “So he hired

Fatal Error and End Times was a Robot” he then starts walking out but Chaos Ghost stopped him “There is more remember the prophecy for your universe well I know who he is I was about to help him his name is Doctor Doom and advice Forget everything you know he also might look similar to a super hero in the MCU but he wears a mask to hide his face” MCU24 looks back “Thanks for helping” MCU24 walks out and goes to the SMG4 Universe he walks into the castle “Hey SMG4 we got news for two things MCU and Niles first Chaos Ghost told me that he is planning to make a perfect universe and he also knows some person named Dr Doom is coming to the MCU I think we got more info” SMG4 then goes to his computer “we got some type of Audio file I thought it was just beeping” audio plays -. .. .-.. . ... / .. ... / -... . .. -. --. / -.-. .... .- ... . -.. / -... -.-- / -- . - .- .-.. -....- ----- / .... . / -- .. --. .... - / .-- . / -.-. .- ..- --. .... - / ... --- --- -. / .. ..-. / .-- . / ..-. .. -. -.. / -- . - .- .-.. -....- ----- audio stops “does that sound like anything” MCU24 looks at it “No it doesn’t” SMG4 presses a button and it translates to morse code “NILES IS BEING CHASED BY METAL-0 HE MIGHT WE CAUGHT SOON IF WE FIND METAL-0” SMG4 looks at MCU24 “We got a message in morse code and Metal-0 is located going in Niles location he can track it so we can track it” he closes the Tab showing another tab tracking Niles Ship.

Chapter 6
Another Plan Starts

SMG4 looks at MCU24 “We can track Niles” closes tab showing a tab tracking Niles “and Metal-0 is how we do that” he then sends the tracker to his phone so he can track him in the space ship leading them to Niles and SMG4 turns on the communicator “All ready to go” the ship then follows Metal-0 and MCU24 is in the second ship “Okay we got to find where Niles is going” Niles then notices Metal-0 “Not him again” He then Starts putting auto fly on and starts shooting at Metal-0 “Weapon Detected” Metal-0 dodges it and SMG4 ships starts coming Metal-0 then scans the area “Second Ship detected” Metal-0 then lands on SMG4 Ship and deactivates the power and the ship starts going down and Mario Wakes up “WHAT THE HELL IS HAPPENING” the ship starts going towards an planet SMG4 looks around “Don’t open this up till I am done” he opens and goes out then closes the door and goes to the power and fixes the power reactivating the ship “DONE” he goes back in and Mario looks around “YEAH WE SAVED THE WORLD” SMG4 goes to pilot the ship “MCU24 I am back online” he flies towards Metal-0 and Niles ship then runs out of ammo and Metal-0 lands on top of the ship Niles looks out “This is not over” he picks up a fire flower and opens the door and uses it against Metal-0 sending him flying off the ship and Niles flies away SMG4 then flies into a portal “We gotta get back” Metal-0 scans for details “Niles detected” Metal-0 flies off and SMG4 then thinks of something “Reality-0 we could look for something” he flies through the place and notices a few things he finds a few VHS Tapes in a box labled Multiverse along with a cave like structure “This should have been destroyed” Mario looks around “BORRRRRING” he flies into the ship and it had things on wall SMG4 he read it “A character from Reality-0 will die to save the multiverse from Niles” he then

goes back to the ship “Mario lets go” he flies to his Universe to tell MCU24 what he found “I found some text in a cave it said something about Niles and someone will die to save the Multiverse” MCU24 looks at him “We are giving up on looking for Doom we can’t contact help plus we aren't avengers” SMG4 looks out “Niles got away” a device turns on .. / .- -- / .... . .-. . / - --- / .... . .-.. .--. / .. / .- -- / .- -. / .- .. / .--. .-. --- --. .-. .- -- / -.-. .- .-.. .-.. . -.. / .. -. ..-. .. -. .. - . / .. / .-- .- ... / -.-. .-. . .- - . -.. / - --- / .... . .-.. .--. / -. .. .-.. . .----. ... / -... ..- - / .-- .- ... / .- .-.. ... --- / .- -... .- -. -.. --- -. . -.. / .-.. .. -.- . / -- . - .- .-.. / --.. . .-. --- / .. / -.-. .- -. / .... . .-.. .--. SMG4 goes “I can translate” AI starts “I AM HERE TO HELP I AM AN AI PROGRAM CALLED INFINITE I WAS CREATED TO HELP NILE'S BUT WAS ALSO ABANDONED LIKE METAL ZERO I CAN HELP” MCU24 looks “Is this an AI program” SMG4 looks back “You mean like Cain, Glitchtrap, or something ” MCU24 looks at him “Who is Cain” SMG4 looks back "AMAZING DIGITAL CIRCUS DIMENSION AI” The AI starts again - ..- .-. -. / .-. . --. ..- .-.. .- .-. / - . -..- - / ... . - - .. -. --. / --- -. MCU24 looks at it “What does it say” SMG4 translate “It saying to turn on Text settings” he presses a button “I am Infinite here to help you since Niles abandoned me I can help you with files from his PC” SMG4 looks at the PC “Anything on plans” AI loads “Files loaded” SMG4 looks “He is going to make an army of robots along with some device that can destroy millions of Dimension just to make the perfect Dimension and his target Mario our Avatar Is there anything on videos” AI loads “Videos folder opened” He presses first video “We got to go the God Box is gonna be destroyed” The God box explodes and SMG0 is killed “No this was not meant to happen” Screen turns to static

Chapter 7

MCU24
DOOMSDAY

Chapter 1
The Beginning of the END

Clay Throwfire was in his room listening to Music with Headphones when his Black Computer turned on and for a few seconds flashed Niles Detected before changing to Doom Detected for a few seconds but before he noticed it changed one last time to Multiverse Travel Detected then quickly flashes between Large Incursion Detected and Multiverse Travel Detected MCU24 also known as Clay Throwfire notices it and turns on a camera and it looked like Spiderman and Doctor Strange traveling the Multiverse MCU24 then goes to contact CTG24 about it CTG24 then answers the call “Who is this” MCU24 starts talking “I got thousands of notifications and alarms one for huge incursion then one with Niles and Doom is here and one saying Multiversal Travel and when I checked the camera it was Spider-Man and Doctor Strange I think this could be them trying to fix the Multiverse I think we need to fix what we made, what our enemies made, and what Niles made unless we could end up making more problems so I am going to start fixing out mistakes I need you to stay in your universe because the Large Incursion could get in the way before we can stop it so I must go alone hope I see you soon” MCU24 hangs up and then tries opening a portal with his Blue energy but it goes to a random universe the incursion had got in his way and he needed to fix this without making a portal to fix this he needed a spaceship one capable of traveling the Multiverse he was going to do that but he needed to make one last call before going he had to call SMG4 when he answers MCU24 starts talking “Hey SMG4 we need to fix more than one thing you need to get WPNZ and Goop back to their timeline and get Nether King to his Timeline so we can fix some incursions but don’t worry about SMG5 his universe is broken that does not make a problem” MCU24 hangs up and goes to an abandoned building where he had put a copy of SMG4 spaceship “Time to fix all our mistakes” he gets in the ship and it powers on and opens a portal and he flies through to the dimension starting with the first he needed to find a few people and return them to their dimensions starting with the Prototype that was brought to another universe when Niles was traveling the Multiverse he goes through the portal to its coordinates.

Chapter 2
‘ THE START OF A JOURNEY

MCU24 flies through the portal to find the Prototype and fix that part of incursions caused by him, his friends, and his enemies e flies to the coordinates and the Prototype is on Reality-0 “How did we not notice he was in Reality-0” he is found in a part of the remaining part of the planet and MCU24 starts flying over and opens a portal to his universe and he falls through and MCU24 closes the portal “That was easy” He starts to fly away and he was being followed by someone in another ship he then notices it was Niles and Niles turned on his Communicator “You thought you beat me I might not be known by Doom but I am gonna help him” He then fires the weapons at the ship MCU24 runs for a parachute and then goes to the control and opens a portal then runs for his space suit then opens the back and jumps the portal and floats towards

the portal and then pulls the parachute when he is through the portal as the ship explodes and Niles flies away from the ship and MCU24 uses the parachute and lands in the next location where he was gonna find Catnap and send him back to his timeline but he didn't see anything just a empty desert nothing for miles but thats when he notices something in the distance it was Niles he then runs away from Niles and tries to open a portal but his powers were glitching and opened hundreds of portals sending MCU24 through hundreds of Dimensions and he was left in a white area of the app known as a void but he saw something in the distance he didn't know who or what it was but more portals opened and he was sent to another location a dark office where he noticed something outside the office doors it looked like a Green Animatronic bunny he then tries opening the left door that it was through but it was broken and would not open so he opened the right door and went out and saw something at the end of the hall it looked like a burnt green freddy it ran at MCU24 but when he looked Phantom Freddy was gone but MCU24 ran out and through the hall and Springtrap followed him so MCU24 picked up a nearby axe and threw it at Springtrap giving him enough time to open one more portal and he was sent to SMG4 Dimension

Chapter 3
ANOTHER CHAPTER

MCU24 opens a portal to SMG4 Dimension and went through then started running to the Castle to talk to SMG4 he goes through the door to talk to SMG4 and when he gets there SMG4 ask what happened MCU24 was thinking "I don't know I just was attacked by Niles after trying to fix everyone's mistakes then tried to open a portal but ever since I got an alert for Incursions happening I can't use my powers to open portals right but" SMG4 looks at the computer "How can we find out" MCU24 had a few ideas "We could go get help from Banner but he is probably helping with something in my universe but something called the TVA calls my universe the Sacred Timeline but I think we still can get there through a thing called the Quantum realm it is a thing where you become small and we can get there through that but we need Pam Particles and I think I can get some that's the plan at least to help fix my powers should be easy but can I open a portal with your USB Ship" SMG4 goes and opens a portal to the MCU and MCU24 runs through the portal to get the Pam Particles he had found some in the past through the Multiverse when he was traveling through it and keep three of them so he brought them to the MCU he went and got them out of His metal TMNT case then attached it to his Space Suit and went to the Quantum Realm then to the right point then went back to the right point in time to get help "I hope this works" He opens a portal to the right place but then thought of getting Banner to help him fix the Multiverse but then changed to get help from this Branched Timelines Dr Strange to find out what was wrong with his powers and he had two Pam Particles left.

Chapter 4
Dr Strange

MCU24 starts using blue energy webs to start swinging towards Sanctum Sanctorum, the place Dr Strange lives because he knows a little bit more about the Multiverse than anyone else in the MCU at this Branched Timeline he then gets to the Sanctum Sanctorum to talk to Dr Strange about his powers and how he can travel the Multiverse and how he was from the Sacred Timeline he then lands at the door of the Sanctum Sanctorum and goes to knock on the door but he is teleported into the inside and Dr Strange is there “Hi Clay Throwfire I have been expecting you” MCU24 starts thinking about what he is going to do “How do you know my name” Dr Strange then pulls up a page on his phone “This is why a news story saying that strange activity had occurred in the area your home town” MCU24 then tries to think about whats happening “also I found out you can travel the multiverse something everyone in this universe knows so little about” MCU24 then remembers Shadow Knight “I had a friend named Shadow Knight he was me from another universe and came to save mine but thats not why I am here I am here because” Dr Strange stops him “I know why your here you came from the future to find help about why your powers are not working but it’s not you thats the reason why it’s not working” MCU24 starts trying to find what he means “What is it then” Dr. Strange then turns around and looks at MCU24 “The reason is that you are not a part of one universe you are a part of every universe you can’t cause Incursions but when a nearby one happens your powers start to mess up and glitch out look just like me you didn’t choose to become a hero it was destiny you were always meant to be Shadow Knight just like how I was meant to be the protector of my universe” MCU24 tries to think of what he should do but Dr Strange stops him “Before you go you need to know about the mirror dimension when you are in there you can’t effect the real world so next time you see Niles use that dimension also I will make sure you stay safe” MCU24 Hears SMG4 say he is bringing him back Dr Strange looks at MCU24 “You got to go save your reality” MCU24 uses the Pam Particles and is brought back to the future.

Chapter 5
The New Realization

MCU24 goes back to his timeline after talking to Dr Strange and had returned to the SMG4 Castle “I think that we can win” SMG4 then continues to find Niles location MCU24 looks outside “We are going to use the Mirror Dimension so he can’t effect the real world” SMG4 located Niles in Reality-0 and MCU24 opens a portal “I find out a way to fix my powers” he goes through to

Reality-0 and walks into a large crater and he does not find Niles what he finds is a green crystal it was not an infinity stone and was not an universal stone it was glowing green and he picked it up and put it in his pocket and continued to walk through when SMG4 gets on the communication “The destination changed I think it isn’t Niles anymore” MCU24 opens a portal and comes back to SMG4 castle bringing the stone with him to find out what it was and to find a way to defeat Niles by bringing him to the Mirror Dimension but they also needed to know where he was they didn’t know yet the tracker was out of range they would have to find him on the tracker to find out where he was but they also had another character helping them and they didn’t even know he was someone MCU24 helped after CTG-01 died a week before and his name was Chaos Ghost and he was coming to help them but MCU24 needed to stay away from nearby incursions at the same time but he knew what he needed to do.

Chapter 6
The Energy Stone

MCU24 went to the computer and searched up every stone in MCU and Reality-0 but all that would show up was the Infinity Stones he could not find what the stone was and what it did he then tried to see if it was electric and the robot sparked and powered down he then made a wikipedia page in the MCU his home dimension called The Energy Stone and put all the info he found about it into the Wikipedia page he then also decided he needed more help and he needed more Pam Particles to get to the past and get help to find out what the Energy Stone was he was gonna find Pam Particles and talk to Dr Strange to find out what the Stone was he knew the infinity stones he was gonna see if it was an infinity stone then one thing went into his head the infinity stones was destroyed by Thanos so it could not be an Infinity stone he had to find out what it was quickly but something felt off about it because it was in Reality-0 and this could be something from there and he thought he should go back and find out what it was but the tracker turns on showing where Niles is

Chapter 7
ERROR and Ethan

ERROR and Ethan are at Universe-C21 there new base and they get a message with one place written on the details it was Reality-0 but they then read further to find out more about why it was sent it said it was from Chaos Ghost that he might have found where Niles is but when they look at the second location ERROR felt like he had seen it before Ethan then tries to think what it could mean “Hey ERROR this does not seem right I think it could be a trap” ERROR then remembers what it was “I know what that location is it was where I last saw Bill Cipher and he is a Dream Demon he tried to get through the Multiverse and I stopped him” a portal then opens behind them and two characters come out it was Niles and Bill Cipher “You think you have won Well time for a rematch” Niles walks back through the portal and Bill Cipher had come back but before he could attack ERROR opens a portal and they go through but Bill Cipher went to that same location ERROR then opens messages and sends a message to MCU24 and CTG24 “We need your help Bill Cipher is back and so is Niles also Bill Cipher is following us” He sends the message and they then open a portal and escape from Bill Cipher but before CTG24 gets the message Niles hacks it and changes the location to the FNAF Universe where MCU24 had recently been but this time he changed reality he made Foxy come back but controled by him and made Nightmare Fredbear a hullutination into a real animatronic setting a trap for CTG24 to follow

Chapter 8
The Plot Twist

CTG24 gets the message then goes to get his sword from the shed he goes into the shed to get it walking past things from the past SD-32 Robotic head, ERROR’s Energy Stone, and Others but one stood out from the rest it was a PC it also turned on “The Amazing Digital Cir Cir Circu Circus” it then powers off CTG24 gets his sword and goes to open the portal when it opens and he goes through he was in an FNAF building he looks up and read the sign Fazbears Fright he goes in past Golden Freddy and past Springtrap then hears a noise but does not see anything but a door slams closed he opens it and it lead into a forest he steps out and Nightmare Fredbear watches behind him he quickly turns back it was gone “Who is there” he walks to the door and Foxy bursts out of the ground one arm ripped off and one eye gone he gets out of the ground CTG24 runs from him into the back room and the room glitches and the Withereds appears in the room but they don’t power on but Nightmare Fredbear Appears before it can get to him Jibanyan runs out of his hiding place “Paws of fury” it knocks him back with no damage CTG24 looks at Jibanyan “How did you get here” Nightmare Fredbear is about to attack before he could fight either of them Golden Freddy appears and destroys Nightmare Fredbear as it lays on the ground it turns back into a Hallutination and disappears the lights flicker as Golden

Freddys looks at them turns into a ghost then fully disappears lights stop flickering Jibanyan looks at CTG24 “I was running from a guy named Niles into some type of portal” They then run to go back to the portal but Foxy comes back and does a metallic scream and Withereds come out into the pizzeria but not for long Springtrap comes out of the shadows having memories of the Past with them how he could of helped but didn’t and was brought back every time Springtrap hits an axe at Withered freddy hitting the head of the animaronic powers down the axe was then thrown at Broken Foxy it is shattered the others power down and hit the ground Springtrap runs out into the darkness as they go into the portal.

Chapter 9
The Realization

They go through the portal back to the place they were at then try to contact ERROR and Ethan but Bill Answers “Hey Guess who I was ordered by Some idiot named Niles he wanted me to get rid of all Multiversal Avengers he does not know but I am gonna betray him and find my way to that universe if not I might go try Gravity Falls and try tricking a guy named” Phone powers off they then go to a portal to help their friends only to find nothing Bill Cipher was gone and a portal opens Ethan and ERROR come through “We need to stop Niles” CTG24 tries to think “I know his plan he is not aiming at one of us its all of us I think Robo-Knight is next” A portal opens MCU24 comes through “I am here it says Niles is here” they look out a broken space ship but not Niles they were tricked Niles was planning something MCU24 opens a portal and runs through he was going to help his friend Robo-Spider MCU24 was then in his universe but he then notices that Niles was across “Stop you already have lost no point in trying” Niles starts glitching “I have not lost I am getting started now” He teleports away and MCU24 runs to help Robo-Spider and then presses a button of the hood of his Hoddie and the an Hallogram of his mask appears and he starts using his energy to swing through the city he then locates another anomaly he uses a blue energy of himself to go see what it is He then swing to help Robo-Spider the Energy version of him goes to the anomaly but what he finds is a radioactive spider in an abandoned building he gets it and puts it in a portal to Dimension-10 after that MCU24 gets to Robo-Spider location where they both notice Niles “I gave both of you a chance to stop and stay away but now I am not giving you another chance” he then uses a sword to attack them he walsk towards them fasing through objects he then is hit with a red energy sword and ERROR had come to help MCU24 gets his sword out and starts to fight Niles but Niles starts fazing through objects but MCU24 stops “Fazer on” He starts fazing through objects to hit Niles “So you upgraded your tech it still won’t stop me” MCU24 hits him back and Niles stops fazing through objects “Fazer off” ERROR uses his red energy to try to hit Niles hitting him back “You don't know do you Red is decaying universe and blue is normal universes but Purple and others colors are in between” He gets hit with ERRORS energy “This is not the end” Niles opens a portal and goes through CTG24 goes back to the shed to get something but the PC turns on and CTG24 looks at it “You didn’t think I was gone did you I am Fatal Error I won’t be defeated” Fatal

ERROR moves from one device to another until he gets to a robot in the back it looked like SD-32 but with stronger weapons it turns on “I AM BACK” it breaks through the doors

Chapter 10
Fatal-32

Fatal-32 breaks through the door and flies off into a portal MCU24, ERROR, and Robo-Spider try to think what to do when Fatal-32 comes in “REMEMBER ME Fatal Error” He then shoots at them when MCU24 makes a force field with his energy “I thought you were dead deactivated” Fatal-32 then tries to scan the area for an advantage “No I am much stronger” Fatal-32 breaks the floor of the abandoned building and flies in the air as the others fall “THIS IS THE END” He then fires explosive at them but MCU24 opens a portal and they escape when they get through they thought they had escaped but Fatal Error breaks through the wall MCU24 looks at him “WHY ARE YOU DOING THIS” Fatal Error looks at him “You defeated me I AM GOING TO TAKE OVER THE MULTIVERSE KILL EVERYTHING AND TAKE CONTROL OF ALL MACHINE you can’t stop me I have control of your old friend and soon the Multiverse and now you can’t escape” just then a shadowy figure throws a device sending Fatal Error to a random dimension along with breaking the multiverse traveling device and goes through a portal before the others could see him MCU24 looks in that direction “Who was that he looks like someone I know” Niles then shows up “One thing you should know is that you can’t win I got Mario and if you want him to live you will not get in my way I don’t care about Fatal Error, You, SMG5, or anyone I am stronger than anyone and just know I WILL ALWAYS COME BACK” Niles disappears into a portal MCU24 then tries to think what they were going to do when SMG4 comes in “We need to save Mario if he is destroyed my Universe will fall apart and the multiverse will be lost” MCU24 looks at him “I don’t know if we can but we do need to stop him even if we lose we need to defeat him and now with both Fatal-32 and Niles things just got worse” he opens a portal “And we need to save Mario” they then go into the portal.

Chapter 11
The War Begins

A portal opens to Dimension-10 Niles was then waiting for them and they come through the portal MCU24 looks at Niles “You better let our friend go” Niles looks at him “I don’t need you friend take him I just need you gone” Niles then tries to attack but sends them through a portal they were in Green Hills “This is over you won’t win Shadow Knight is gone” Niles hits MCU24 and they are again sent through a portal to an unknown universe Niles was about to kill MCU24 but before he could a shadowy figure appears behind Niles and hits hit with a blue, red, green, and purple energy sword Niles and MCU24 looks at the character MCU24 knows who it is “Shadow Knight?” Niles looks at Shadow Knight “But you were dead… no matter you are still gonna lose I will still win” they are sent back to Dimension-10 with the rest of the team “this end NOW” The others try to attack Mario looks around “I AM GONNA FLY FOR YOU” he spins and flies at Niles who grabs his foot throwing him away just then SMG4 comes to help Mario “You are gonna regret messing with my friend” Niles moves and SMG4 and SMG3 hit into each other Niles looks at them “Pathetic” ERROR then come and tries to hit Niles but Niles fazes though him and then hits him into a brick wall CTG24 tries to attack but is thrown at ERROR but SMG5 comes to help “LEAVE MY FRIENDS ALONE” SMG5 tries to attack but misses and was thrown away just then MCU24 and Shadow Knight comes to attack MCU24 hits Niles with his sword but is hit away but Shadow Knight dodges Niles and hits him with his sword after that Niles starts fazing through objects “YOUR AN IDIOT” Shadow Knight turns phasing device on and hits Niles but he is not damaged “I ALWAYS COME BACK AS LONG AS THIS UNIVERSE STANDS AND I AM IN IT” MCU24 tries to hit Niles with energy sword but Niles breaks the sword with his own breaking it and the universe starts breaking with the energy tearing the fabric of reality and bringing multiverse and timelines together into one universe MCU24 looks at Niles “What have you done” Shadow Knight gets the others to safety “Hey MCU24 before we start the fight I put all of your things in a replica of our house in an universe safe from Doom he is too dangerous and you are not going to fight him I will send you to the universe when this is all done” they had also just relized that Niles War had just began.

UNKNOWN FUTURE

Chapter 1
The Beginning of the Start

MCU24 is in a giant cube made of portal energy and saw his friends go through different portals he then gets launched into his room feeling like he failed and caused everything that happened and Niles was still in Dimension-10 along with SMG5 and Shadow Knight he didn't know what he could do but he had to try to find a way back and a way to find his friends but he didn't know what to do and he also didn't know where we are then his computer gets a message it was from SMG4 saying he was in his dimension and he had info from SMG5 saying that Niles was from his universe and that when Niles lost instead of SMG4 giving them a happy ending he was killed and that Niles friend died and that he was going to find a way to make another perfect universe but that's where the info ended but MCU24 could not use his powers as easy as before and he needed to find a way back he then looked back at the portal gun but it was broken from when ERROR broke it to defeat Bill he was out of decisions then a portal opens behind him and a mysterious figure comes out "Your glad the Spider Society didn't notice I am from a universe destroyed long time ago I originally thought it was Miguel the leader of the spider society but leaned it was really incursions sad to say but you saved Robo-Spider his universe has been destroyed by incursions caused by Doctor Doom so he is still in DImension 10" MCU24 asks who he was "I am Ash also known as MCU24-2099 I saved Shadow Knight once but we need to stop Niles I have a way to find your friends" Ash throws a disc at the wall opening a portal "Your Dimension and mine are destroyed but we can stop Niles." they go through the portal

Chapter 2
Ash the New Hero

They go through the portal to find their friends and stop Niles but MCU24-2099 gives more info on Niles "Niles now uses some of the Multiversal Energy you had to get help from both space, time, and multiverse but it also caused many people to get pulled to Dimension 10 too" they come out through the portal "but some help he got was not through space and time someone he found before you got here was Zero he was Shadow Knights timeline he was Error but half his screen is broke and he has been in a universe filled with killer versions Disney characters but thats when Niles found him and they are working together but Shadow Knight is still in a prison in Dimension 10 so we need to help the resistance defeat Niles also the leader of the resistance is CTG24 Two who I call CTG-2 so you might have worked with him" they go to find ERROR they are in a forest Ash gives MCU24 a DSI "Hey Clay Throwfire I am gonna call you 24 also that DSI is modified to tell each other where we are and chat through a upgraded version of Picto Chat" they walk through the forest to find ERROR MCU24 looks at Ash "Why is my powers not working" Ash looks at him "Your powers are evolving to Millions of universes a second" MCU24 tries to use his energy after a few seconds blades comes out of his fist Ash then looks at him "Thats Wolverines powers your getting more powers in a way" they continue to look for ERROR and MCU24's blades glow in the darkness

Chapter 3
Through the Forest

They walk through the Forest to find ERROR they then see a portal open and three robots come out that are controlled by Fatal Error they look for MCU24 and ERROR then they see ERROR using a red energy axe made of multiversal energy as he gets closer they realize it was not ERROR it was Zero who was working with Niles they had come to the wrong universe but Zero got closer “So I finally can get my revenge against you Shadow Knight” Zero got MCU24 confused with Shadow Knight since they are different timeline version of each other but before Zero could do anything the real Error comes out to help and opens a portal while also pushing Zero in they sent him to Dimension-10 MCU24-2099 then looked at MCU24 “We can't let Niles get Dimension-63863 your new dimension” MCU24 runs at one of the Fatal Error robots stabbing it in the part that controls the robot he pulls back the energy blade and the robot hits the ground then Error throws the axe at the second and the third gets destroyed by MCU24-2099 they then get out of the dimension before anything else could happen.

Chapter 4
Disconnections

MCU24 stops after they go through the portal to talk to 2099 “Okay what are we going to do are friends are lost Niles sent Fatal Error and Zero after us and we can’t find help” 2099 tries to think of a plan “first we find our friends then we go for people who we helped and see if they can help like that zombie drone Clay Throwfire but then we help the resistance run by CTG2 then we defeat Niles while stabilizing the Ten Point” MCU24 stops him “The Ten Point what do you mean like Zero Point from Fortnite what does that have to do with any of this” 2099 continues “Clay this is a zero point from Dimension-10 when your energy made a big incursion quickly fixed it also messed with the Ten Point if we use enough of Errors energy we can stabilize it” they then try to find the others location MCU24 looks at the computer “So where is CTG24 and the others” the computer located him “He is in the Yo-Kai Watch dimension with your friend Jibanyan” he throws a disk opening a portal “We need to go find him” they go through and ERROR stops them “Wait Shadow Knight and SMG5 are still in Dimension-10 they are captured and we are not doing anything about it” they go anyways and ERROR follows them through the portal both MCU24 and ERROR don’t fully trust 2099 but work with him anyways. They go through the portal to go find CTG24 and end up in the backrooms 2099 looks at the watch “oh he is not in Yo-Kai Watch Dimension he was in the backrooms an never ending maze with only portals as an exit” they look around noticing the place

Chapter 5
THE BACK ROOMS

They look around the backrooms noticing everything around them to find where to go to find CTG24 then ERROR thought he saw something move in the distance 2099 looks around “Watch out for monsters they can change shape to anything across the multiverse they mess with your head and use your past against you or something” they then see a zero point sprite go away into the distance but instead of purple it was red “That was a Ten Point sprite they are messing with our heads right now” they continue to walk through the backrooms and continue to hear voices of their past as they continue “Don’t worry they are using memories against us the only threat is if Niles finds us just keep your mind clear and they should leave us alone as long as we ignore them” they then see CTG24 in the distance but then the floor cracks once CTG24 comes to them and they all get separated and MCU24 looks for his friends and the room turns dark and in the distance he then noticed a figure shaped like him in his MCU24 suit but only zero point style with glowing red eyes it the starts to talk to him “Do you know what I am” MCU24 looks closer “This isn’t real your just a backrooms ghost your not real” it then teleports away it voice echoes in the darkness “I am real I am the spirit of the Ten Point and your not strong enough to beat Niles along with Fatal Error and others…. Because your just a kid” MCU24 then has an illusion of his OG suit a sweat suit with his logo “A kid in a sweatsuit who does not know what he is doing” MCU24 then is in front of a grave that says CTG-01 “And maybe if you were good enough he would not have died and shadow knight wouldn’t either” he then is back with 2099, ERROR, and CTG24 and they make sure he was alright.

Chapter 6
Going to find SMG4

MCU24 looks around “I’m alright” 2099 then throws a disk and opens a portal and they go to the SMG4 Dimension when they get there they meet with SMG4 and SMG3 when they get there SMG4 had to explain something to them “SMG5 sent messages saying he is working with the resistance and CTG2 but we still need to find help” 2099 tries to think of people who can help “What about Throwfire the Zombie Drone we helped in the past” MCU24 hears him “What a Zombie drone he will attacks us” 2099 looks at Clay Throwfire “We have no choice we need to stop Niles you may be MCU24 but you are not Shadow Knight we need as much help as we can get see this is why you can’t carry Thor's hammer you are to impatient and try to think of the bad outcome to easy” 2099 then goes back to finding out who they can get help from MCU24 looks back “Fine we can get his help” they then think of more help 2099 thought of another person “there is also Fortnite version of you” MCU24 looks back “Okay lets go see if they can help us” they then go to them.

Throwfire the Zombie Drone

They go to get help starting with the Murder Drones dimension to get help from Throwfire they then start to find him when they get to the destination it was an abandoned camp they then continue to search around MCU24 tries to think of where to look and hears a noise in the distance “I think I found him” 2099 then looks in the distance “MCU24 be careful both worker drones and zombie drones don’t trust humans” they continue MCU24 thinks “Great thats just great” then goes with them while he thinks of what the Ten Point Spirit said about him not being strong enough to beat Niles. But they continue into a cabin they saw something go in and Clay Throwfire looks behind him and in the distance he notices the Ten Point Spirit the wind blows when he moves his hand away and it was gone MCU24 has a concerned look on his face as he goes in as he steps in he notices pools of oil on the ground “Worker Drone blood that shows he is nearby” they continue into the cabin and the door slams shut MCU24 looks back “I think we should go back and not risk getting eaten by a robot” 2099 stops him and they continue they then notice clay throwfire fly through a door quickly with his wings 2099 looks that way and ERROR thinks “Hey its ERROR the person who helped you get away from Robo-Knight” Throwfire flies through the room and goes back to normal worker drone design “Why should I help you when your working with those two humans” MCU24 is mad by the remark “Hey I am you, I am CTG24, I am ERROR…. I am not MCU-2099 he is someone named Ash no affense” 2099 looks at MCU24 “Non Taken” MCU24 goes back to talking “Does it matter if I am human and your a Zombie Drones” Throwfire looks back “yes” Throwfire then flies away MCU24 looks at 2099 “I TOLD YOU SO!!!” they then continue to go get his help throwfire goes to the Cabin exit and his hand hits the sunlight and starts to burn and he pulls it back 2099 then throws a tiny device a Throwfires neck “What did you throw at me” 2099 looks at him “Its a device that makes sure you don’t overheat and so you can go into sunlight” Throwfire then looks back “I still don’t trust you” he then flies away 2099 tries to think “We need to get his help” MCU24 looks at 2099 “No we don’t” but 2099 and the others go to continue to get his help “I am coming too even though I don’t want too” he then follows them to help. Not noticing a portal opening in the distance with Zero coming out Zero throws a knife at ERROR but before it hits him Throwfire uses his solver to stop it in mid air then he copies and pastes it all around him sending flying at zero zero dodges them and throws an red energy axe at throwfire cutting his arm off he oil then reshapes his arm and it takes color before Throwfire flies into the air to attack Zero MCU24 turns around and notices Zero fighting Throwfire who none of them had noticed “Hey found Throwfire and Zero” ERROR looks back “THIS GUY AGAIN” 2099 notices before “He saved you” Throwfire then hits him and 2099 opens a portal and he falls in the portal Throwfire comes to them “I’m helping” they then go through a portal to another dimension.

Chapter 2
Minecraft Clay Returns

They go through the portal into the Minecraft universe and they start to look for Minecraft Clay a friend from all the way back in Glitch Pages era of these books when they get there they realize that it will be harder than they though cause the world has mods and is not a big city in the middle of the overworld MCU24 looks around “I have not been here in a while” they continue down the blocky street to find Minecraft Clay they stop by an Minecraft version of Ethan Dimension 10 ERROR variant friend 2099 comes to him “Have you seen Minecraft Clay” Ethan points down the street “It’s about 20 miles away” MCU24 comes to 2099 “How are we meant to get there” 2099 throws down another different colored disc and a blocky car comes up MCU24 looks confused “How did… You planned for everything didn’t you” 2099 looks at him “YES” they get in the car and drive away ERROR tells Minecraft Ethan he will miss him as they drive away when they get to the house MCU24 knocks on the door and a blocky portal opens up and MCU24 screams as Minecraft Clay comes out “Why did you scream” MCU24 is relieved “So glad it was not Fatal Error or Zero we came to get your help to save SMG5 and Shadow Knight and defeat Niles” Minecraft Clay Agrees and 2099 throws a disc on the ground opening a portal when they go through they went to the fortnite island.

They are back in Dimension-10 walking to find the resistance MCU24 looks around “Its so hot” they then notice someone from the resistance who leads them to the base “We found help from many dimension like Robo-Spider and Lego Steve but our leader is CTG2” MCU24 looks sad “We need to save SMG5 and Shadow Knight” they knew the quest to defeat Niles and free Shadow Knight and SMG5 but a familiar face comes to them it was Robo-Knight “We were looking for you but we found someone with energy who was bringing his stuff through a yellow and purple portal we could not get his name or recognize him but we realized that place used to be freddy fazbear pizza before destruction I am glad all you are back” Throwfire looks at him “How can we trust him” 2099 looks back “He changed his ways” they then start a plan to save Shadow Knight and SMG5 after that they are going to find a plan to beat Niles but they needed Shadow Knights help with Tech and SMG5 with knowledge about Niles he had recently been captured though. They had a plan where they went to the castle and use invisibility tech to get into the prison and free Shadow Knight and SMG5 and then if they are caught fight their way out and find their way back to find a way to stabilize the Ten Point and Defeat Niles.

Chapter 2
The Unexpected sight

They set out they leave Throwfire the zombie drone and Minecraft Clay there along with the Fortnite player Clay Thack or so they thought when they get there they activate the invisibility suit ERROR, 2099, CTG24, and MCU24 go in and move their way to the prison when they get there they realize they needed a key card they then split up ERROR and 2099 go to the security room being careful not to get caught when they get back they unlock the cell but the security in the prison deactivates the invisibility tech but Clay Thack appears and taps on MCU24 shoulder and MCU24 whispers to Clay Thack “I told you to stay there at the place how did you get here without invisibility tech” a sprite comes from behind him it was a ghost sprite Clay Thack looks at MCU24 “You have to think of a backup and it looks like you need help” when they start to walk away a bot that was not noticed behind him stabs SMG5 in the back killing him MCU24 turns around in shock “No” SMG5 looks at him “It’s okay defeat Niles and make sure we win” SMG4 then dies MCU24 takes off his mask as it hits the floor and shatters a tear then comes from his eye relizing he just lost a friend 2099 then makes sure they get out they then use ghost sprites to escape they got Shadow Knight out but at a cost when they get back they are met by CTG2 “You did it but wheres SMG5” there is nothing but silence SMG4 then comes to them “It could not have happened is he” MCU24 looks sad “Dead” they then continue to make a plan to stablize the Ten point and they knew ERROR was the key if he could harness his energy into a device he could use the energy to stablize the Ten point but enextpectedly the device was taken out by Zero they then try to think.

Chapter 3
A New Hope

While they try to think of a plan MCU24 had the Ten Point Spirits words going through his head “You can’t beat Niles your just a kid” he then starts to question if he had what it takes to win they already lost a friend and he was not ready to lose another if he continued he might lose another but if he quit the Multiverse would be in danger of Niles he had no idea what to do thats when SMG3 came to him “Hey I know your under a lot of pressure but we need to continue think what would SMG5 do” MCU24 thinks “I don’t know” SMG3 looks back at him “Look your strong enough to beat Niles Me and SMG4 beat him and your stronger than the whole team combined CTG24, ERROR, SMG4, and me I won’t say Shadow Knight but you know what I mean look you beat Fatal ERROR, ERROR, and beat SD-32 when he turned into a multiversal monster if you can do that you can fight whatever the hell gets in our way” MCU24 then got more courage to continue “Thanks three you really are a good friend” he then gets up determined to win he then noticed the Ten Spirit in the distance and a green glowing ghost of SMG5 nod at him that he was doing the right thing “I will make sure we win” they then go to make a plan.

Chapter 4
The New Plan is made

When he gets there they try to think “What about Jonsey or The Legend” 2099 stops him “He is in a coma he can’t help” MCU24 tries to think “How about Herobrine” ERROR then stops him “He is in the nether with the Nether King” he tries to think when CTG24 brings something up “How about Entity 303” 2099 looks back “Thats a good idea actually” they then send a message of help to him then 2099 comes to MCU24 “Hey I got your old mask here that you made with yarn and glue it may be falling apart but I thought you would want it” MCU24 is handed the mask “Thank you” he looks back at his friends “We are going to do it we can do this” they then look back at the past and then now “We all can do it” they then start the plan to stabilize the Ten Point.

Chapter 1
MCU24 Dream sequence

MCU24 is in a blue energy void in the distance he noticed SMG5, CTG2, and CTG-01 and turns around and noticed the Ten Point spirit “Don’t give up you can do this” MCU24 tries to think “Is ERROR” The Ten Point spirit then pulls up the Ten Point “He stabilized the Ten Point from the inside it is unclear if he survived or not but you need to wake up” MCU24 then wakes up in the Resistance bunker CTG24 comes to him making sure he was okay when MCU24 gets up he has trouble standing that when chaos ghost the symbiote comes out of the green stone and attaches himself to MCU24 and his suit “I knew you would need my help I have memories from symbiotes across the multiverse they share a hivemind and venoms a part of it” MCU24 then started to feel stronger MCU24 feels more confident “We gotta finish this” they needed to find a plan to defeat Niles but didn’t know how then Throwfire the zombie drone shows up “What the hell were you thinking I knew we couldn’t trust him but this shit needs to stop listen to what we need to do and not what you think we should do Robo-Knight almost killed you and now CTG2 is dead what do we do now” there was silence “I… I don’t know” they try to think they had already lost SMG5, CTG2, and ERROR “I can’t think we are out of options FACE IT… we…. Lost” tears come from MCU24 face “We Lost” he then go out the door CTG24 looks “Wait we can’t give up… can we” they had lost and they didn’t know what to do.

Chapter 2
Shadow Knight plan

Shadow Knight and 2099 are in a room trying to make a plan when Shadow Knight has a plan “We have krang tech like the demintionizer since Niles regenerates that should be enough to take him out” 2099 stops him “NO one of us has to stay behind and I am not losing anyone else” Shadow Knight looks back “What other choice do we have we can’t let Niles win he also betrayed Fatal Error after he killed CTG2 so Zero and Robo-Knight are our only enemies but if I can get the battle bus working we can get everyone out when I set it off I may die in the process but Niles will too thats what we need right” 2099 looks back “I will only do it if you be careful about this” they agree on the plan but they needed to fix the battle bus 2099 looks at him “But if we do this you’ll die I kept the avengers, spiderman from The Sacred Timeline, and spider society from knowing Doctor Strange knows he is protecting the universe if he interfered he would cause a lot of bad things plus MCU24 saw Doctor strange from an alternate reality too all that might be for nothing CTG-01 dimension was destroyed and the TVA knew they knew this would happen and we would defeat them this would be for nothing” Shadow Knight looks at 2099 “Look Ash it won’t be for nothing as long as You, MCU24, and all of our friends are okay it was not for nothing my universe was destroyed so was yours please we need to do this” 2099 looks at him “Okay but only as a last resort” they then go to do everything.

Chapter 3
The Plan thats Sad

When MCU24 goes out he walks out somehow it was snowing even though it was a desert “Is this it lost all my friends Loki just started keeping universe together and he can let this one go if this one's destroyed he knew it was for a good reason” he then continues to walk forward feeling he failed “I feel like I am in the full Murder Drones Forever Music Video on YouTube.” he continues to walk. He falls to his knees crying “What did I do to start this” silence “Great I lost ERROR, SMG5, and CTG Two” he then is determined to take him do “I am going to take him out” Chaos Ghost comes back out “Thats right we can do this” they then go back to the base “we have to take him down now” CTG24 then goes to him “how are we possibly going to do that” MCU24 go to 2099 “Hey we know that Zero and Niles both have regeneration powers but we could send Zero back to where he came and also fight Niles and Robo-Knight at the same time it’s three to what a hundred” CTG24 comes in “He has a point he made a mistake taking out Fatal Error from his plan he is not as powerful he has not made an SD-32 army because Fatal Error can effect them so he is weak” 2099 then looks at the plan “Your right he is weakened because Zero can’t open portals he lost that part of his power he still has energy but it was weakened” he then looks at the plan “lets use that don’t tell shadow knight he has his own plan and you don’t want to let him do it” they had a plan to fix things and they were going to do it.

Chapter 2
THE FINAL BEGINNING

When they get back to the resistance base they feel like they forgot something when they get there MCU24 also asked 2099 how he survived when both SMG5 and CTG2 didn’t 2099 then looks at him “Three things actually first Chaos Ghost is a symbiote he attached himself to you a long time ago he helped second the multiversal energy didn’t only give you Wolverines Claws it also gave you his regeneration ability and third we got you here quickly” MCU24 then tries to think “But if Niles has regeneration” 2099 looks worried at MCU24 “We didn’t beat him he is still alive” just then a loud screeching noise comes from the distance and MCU24 falls to his knees covering his ears Chaos Ghost weakness is loud frequency and it would now effect both MCU24 and Chaos Ghost explosions come from every direction MCU24 tries as hard as he can to walk to help his friends but he then falls to his knees and as he screams an blue energy blast comes from him powering off everything the computers and the machine making the screeching noise where only the Modified Battle Bus are working MCU24 feels dizzy as he gets up “What just happened” CTG24 goes to help him over to the table but most of the resistance base was destroyed they here a noise it sounded like a Mech Suit coming in their direction it comes into the base it was Niles “Hey 24 nice power you have your energy deactivated everything but my Mech you know why I have Four of the Five Multiversal Energy Types I have Purple, Red, Blue, and Green of course I don’t have Yellow it’s the rarest it would make me invincible I will give you a chance STAY OUT OF MY WAY or I will have no choice but to kill you too” Niles then flies back

to his castle with his Mech 2099 comes to MCU24 “Clay hey Clay Throwfire can you hear me” MCU24 looks at him “Yeah I’m okay” 2099 looks back “I am sorry you were right but we have to win this if not Doctor Strange would have got in this too but I am getting off the point I am glad your okay you were right about Niles and we need to stop him” MCU24 looks at him “This year has not been good got bit by a spider in Robo-Spider dimension my friends ERROR and CTG2 died and I keep messing up in the worst ways possible maybe Strange was wrong” 2099 looks at MCU24 “No you were trying to do the right thing just remember with great power comes great responsibility” Robo-Spider then swings into their “Yeah I was told that” 2099 then looks back at MCU24 “its part of the Web of Destiny it can be changed but not often” they then try to find a way to beat Niles.
